REPORT.

THE ninth biennial report of the Board of Directors of the Kansas State Historical Society is herewith presented. It shows the work of the Society during the two years from November 15, 1892, to November 20, 1894. Its publication has been delayed owing to deficiency in funds in the state printing department.

This Society has been engaged in its work for 19 years. For this period it has been intrusted by the people of the state with the duty of collecting the scattered materials of the eventful history of Kansas and, taking these materials as a basis of making up in the state capitol a general library of reference for the use of the people. The Society was formed by the Kansas State Editorial Association in 1875. That association, then embracing in one body a large representation of the intelligent and thoughtful people of the whole state, at the annual meeting held at Manhattan in April of that year appointed a committee to organize a State Historical Society. The committee organized this Society. Work was begun by the beginning of the centennial year (1876). That year the collections into the library numbered 408 bound and unbound volumes, including volumes of newspaper files. From this small beginning the library has grown to the number of 79,900 volumes, besides an almost innumerable collection of manuscripts, pictures, and historical relics and memorials of every description.

During the period covered by the report there have been added to the library 1,460 volumes of books; 5,346 unbound volumes and pamphlets; 2,776 volumes of newspapers and periodicals; 481 single newspapers containing matter of special historical interest; 326 maps, atlases, and charts; 2,891 manuscripts; 312 pictures and other works of art; 17 pieces of scrip, currency, and coin; 2 war relics; and 387 miscellaneous contributions.

Thus, to the library proper, of books, pamphlets, newspapers, and periodicals, during the two years have been added 9,582 volumes. Of these, 9,073 have been procured by gift and exchange, and 509 by purchase.

The total of the library at the present time is as follows: 15,874 bound volumes of books, 48,617 unbound volumes and pamphlets, 15,409 bound newspaper files and volumes of periodicals; in all, 79,900 volumes.

Of the accessions of books and pamphlets during the two years, 385 volumes have been purchased and 6,421 have come by gift and exchange. Of newspapers and magazines, 189 volumes have been purchased and 2,587 have been donated to the Society. The lists and tables in the report show the sources from which all the accessions of the different classes have come.

KANSAS NEWSPAPERS.

To the bound volumes of newspapers and magazines published in Kansas, 1,635 volumes have been added during the two years. These have all been donated to the Society by the publishers. The library now contains on its shelves 10,689 bound volumes of Kansas newspapers and magazines. This is a larger collection of local historical materials of this class than is contained in any other library in the world. Of newspapers and magazines published in other states, the library contains 4,720 volumes.

SOURCES—LEGAL REQUIREMENTS.

The accessions to the library come by gift, by exchange, and by purchase. Those by gift and exchange come largely from societies and institutions, and from state, government, municipal and other public authorities. The purchases come from booksellers. These three means of building up the library are contemplated in the law which recognized our Historical Society as an institution of the state and provided for its maintenance and the care of its

collections—the act of the legislature of 1879. In the language of the act, it is the duty of the Society to procure, "by gift and exchange, scientific and historical reports of the legislatures of other states, of railroads, reports of geological and other scientific surveys, and of such other books, maps, charts, and materials as will facilitate the investigation of historical, scientific, social, educational and literary subjects," and "to purchase books to supply deficiencies in the various departments of its collections."

The Society had been engaged in its work three years before its duties were specifically defined by law. The law was evolved from the experience of those three years. With little money expended, by 1879 a library of 4,300 volumes had been made up by the Society in the statehouse. It had grown almost wholly from gifts and exchanges. Now the state by law provided for the care of the library, and for its future growth. To enable the Society to augment its collections through exchanges, the legislature provided that, with one exception, there should be given it 60 bound copies of all of the publications of the state and of its institutions. It made the Society "the trustee of the state," imposed upon it definite duties in the discharge of its trust, and, with the Society's consent, took its library and collections into its keeping as the property of the state.

The legislature made it the duty of the Society to continue as hitherto in its work of making up a library of reference in history, science, education, politics, and in the various departments of human knowledge, by soliciting gifts and making exchanges, and by purchasing such books as might be necessary to supply the deficiencies in the various departments. Purchases had become quite necessary. A foundation had been made for a large library of general reference in all departments. Experience had shown that the growth by gift and exchange was resulting in making a library very incomplete in its various departments. As a consequence, in the use of the library, there would be found but incomplete sets of books upon any subject of investigation. The law, for this reason, provided that purchases should be made to supply the deficiencies in such sets, so that a well-rounded and well-filled library of reference should be made up for the use of students, investigators, and writers upon all subjects of common inquiry.

PURCHASES INSUFFICIENT.

Up to the present time, the appropriations for purchases have been wholly inadequate to supply deficiencies. They have been usually but $500 annually. This is a trifling and insignificant amount compared with the accessions by gift, and compared with what is being expended by other states for such purchases. Wisconsin, Minnesota, Illinois, and Iowa, for example, give for the purchase of books for their historical libraries from $3,000 to $5,000 annually.

Take one class of gifts alone—that of newspapers and magazines. The newspaper publishers of Kansas are giving to the library, annually, about 860 volumes. These, at the rates paid by subscribers, would give to the pub-

lishers an aggregate of at least $1,000 per year. This sum is thus being donated annually to the state by one class of our citizens to aid in building up the historical library of Kansas. The generosity of these givers stands in striking contrast with the meagerness of the state appropriations for accessions to the library. This library is for the use of all the people of the state. No other part of the library is being so much consulted as are the newspaper files. In them, search is made by citizens of all parts of the state for legal notices, for dates and details of occurrence of events, for facts concerning the organization and movement of political and social bodies, and, in fact, concerning all the numberless subjects which enter into the busy life of our people, and which find so full a record in our local newspapers.

Our library contains the files of the newspapers of every county in the state. Considering the small proportion in numbers which the class of newspaper publishers bears to the number of citizens of the state at large, the generosity of the one class by no means finds proper recognition. These newspaper people were the founders of the State Historical Society. To them the state owes the existence of a library already unequaled, in the value of its local historical material, by that of any state of the union. It is certainly demanded that the state should respond to the liberality of the newspaper publishers, by adequate appropriations for making this library complete in all its departments.

NEWSPAPERS AS MATERIALS OF HISTORY.

It cannot be said that these newspaper files are not worth in this library the price of their subscription rates. They contain the history of Kansas. No part of Kansas history can be written without consulting these files. Hon. Nelson Case, of Oswego, the author of the recently published history of Labette county, one of the most complete histories yet written of any Kansas county, says:

"I think that anyone who has considered the matter, and especially anyone who has had any experience in writing local history, will agree with me in saying there is no help so complete and accurate as the home newspaper in giving the happenings in any community."

Says Hon. John Maloy, the very capable historian of Morris county:

"Speaking of the importance of the newspaper files in your Society's rooms, I do not think the history of any county in our state could be written without consulting them. . . . I could not now do anything in the way of sketching the history, biography or incidents of Morris county without having recourse to the files of your library. I regard the State Historical Society as one of the indispensable institutions of our state; one, however, too little appreciated and too begrudgingly aided and fostered by legislation."

In a recent article in the *Forum* magazine, President Eliot, of Harvard University, says of the American newspapers of the present time, that,

"Taken together with magazines and the controversial pamphlets, they

shed more light on the social, industrial and political life of the people of the United States than was ever shed before on the doings and ways of any people. Many people," he says, "are in the habit of complaining bitterly of the intrusion of the newspaper reporter into every nook and corner of the state, and even into the privacy of the home; but in this extreme publicity is to be found the means of social, industrial and governmental reform and progress."

The newspaper which thus enlightens the public becomes an enduring record of history when preserved in a library. It carries down to the succeeding generations the story of the social, industrial and political life of the people, as the world moves forward in change and progress. For Kansas, all the newspapers published in the state are thus being preserved. A newspaper association established the Society, and newspaper publishers are making the most valuable additions to its library.

Our Society stands foremost among the historical societies in this country in the work of saving newspapers as materials of local history. Various causes have prompted the Society to diligence and thoroughness in this work; chiefly, that the Society was established by newspaper men; that the newspaper men of the state have always comprised the principal membership of the Society; and that they have always taken a pride and interest in the work which the Society is doing for the state. Historical societies and librarians have always valued this library feature. But it would seem that never, until in the instance of our Society, has an institution been so constituted as that sufficient attention and labor have been given to this department to make its work thorough and complete.

Twenty-two years ago, Hon. A. R. Spofford, the distinguished librarian of Congress, the foremost of all library makers, said, in the Centennial History of Libraries in the United States, 1876:

"The modern newspapers and other periodical publications afford the truest, the fullest, and, on the whole, the most impartial image of the age we live in that can be derived from any single source. Taken together, they afford the richest materials for the historian, or the student of politics, of society, of literature, and of civilization in its various aspects. What precious memorials of the day even the advertisements and brief paragraphs of the newspapers of a century ago afford us. . . .

"While the files of the journals of any period furnish unquestionably the best instruments for the history of that epoch, it is lamentable to reflect that so little care has ever been taken to preserve a fair representation of those of any age. The destiny of nearly all newspapers is swift destruction, and even those which are preserved commonly survive in a provokingly fragmentary state. These poor journals of to-day, which everybody is ready to stigmatize as trash, not worth the room to store or the money to bind, are the very materials which the man of the future will search for with eagerness, and for some of which he will be ready to pay their weight in gold. These representatives of the commercial, industrial, inventive, social, literary, political, moral and religious life of the times should be preserved and handed down to posterity with sedulous care. No historian, or other writer on any subject, who would write conscientiously or with full information, can afford to

neglect this fruitful mine of the journals, where his richest materials are frequently to be found."

Said our own lamented governor, John A. Martin, referring to the files of his own newspaper, afterwards mainly destroyed by fire:

"Piled up in the corner of the *Champion* office is the most complete history of Atchison that will ever be written. It is comprised in 35 bound volumes of the *Champion*, weekly and daily, from the first issue made by the present proprietor, February 20, 1858, up to the present time. In these papers — many of them beginning to take on the yellow hue of age — every essential fact connected with the growth and development and daily life of the city of Atchison is recorded — marriages and deaths; the establishment of business and manufacturing enterprises, and their changes; transfers of property; the erection of all important buildings; the results of elections; the opening of streets; the building of railroads; fires and floods; the municipal policies suggested, discussed, and adopted; and the daily life, thoughts, hopes, triumphs and disappointments of an aspiring and energetic community are all embodied in these files."

SOME CLASSES OF BOOKS.

It must not be thought that our Society, in its high appreciation of its newspaper work, is neglecting other departments. Within its means, it is making up a very full library of reference in every department. Into this library is being brought everything published in Kansas upon all subjects. In its general library, it is becoming very full in works relating to the discovery, exploration and settlement of the Western country, and of this class contains no less than 835 volumes; in works relating to Indian history, 442 volumes; in general history, United States history, and the history of the several states, we possess 2,875 volumes; in biography, 1,026 volumes; in science, 4,088 volumes; in education, 1,956 volumes; in political science and political economy, 3,910 volumes; relating to trade and commerce, 1,120 volumes; to agriculture, 1,154 volumes; in religion, 1,206 volumes; relating to charitable subjects, 1,417 volumes.

The history of this country during the last 40 years has hinged upon the history of Kansas. The industry and efficiency of the Kansas State Historical Society, in collecting the materials of Kansas history and of the history of the country in all respects, has attracted the attention of appreciative people everywhere. Hence, around our nucleus of local history has grown up, mainly by gift and exchange, the publications of almost every society and institution throughout this country and of many in the old world. The lists of donations contained in our ninth biennial report show that accessions, chiefly of books and pamphlets, come from more than a thousand different sources.

WAR BOOKS.

In respect to special features of library collections, there are two classes of books in which the library should be made very complete: First, all books written about Kansas history, and books of Kansas authorship of all kinds;

and second, books written upon the history of the war of the rebellion. As to the first class, the library is being made complete by the generous gifts of Kansas authors and publishers. In respect to the latter class, it is far from being made complete. It may be said that the period of the early history of Kansas, during which our people struggled through unsurpassed difficulties into a state existence, was but a prelude to the war of the rebellion. The war for the preservation of the union and of its free institutions raged for six years in Kansas; was fought almost single-handed here by our pioneer settlers before it was taken up by the nation and fought out to its glorious end.

Every well-written book pertaining to the war should be brought into the state historical library. A nucleus for such a library of war history has been gathered in, numbering 511 volumes. There are yet hundreds of volumes pertaining to the details of the war, written in large part by the actors in it, which should be brought into the library in order that it shall be made a complete library of reference as to the history of the great epoch in which Kansas history formed so considerable a feature. A very moderate estimate would call for a present expenditure of a sum of not less than $1,000 for the purchase of books of this class.

SPECIAL GIFTS.

Of the 2,891 manuscript papers and books of special interest given the Society during the two years, may be mentioned those given by Mr. Orville C. Brown, of Adams, N. Y. Mr. Brown was, more than any other person, the founder of Osawatomie. He was a prominent citizen of Kansas during the entire territorial period, and active in public affairs in many useful ways. He met with serious losses from pro-slavery depredations and outrages. His manuscripts given the Society relate, in large part, to matters of early Kansas history.

Hon. J. C. Burnett gives some interesting papers relating to political affairs at important crises in Kansas history.

Prof. I. T. Goodnow before his death, which occurred less than a year ago, added to his former gifts many manuscripts of much interest relating to public affairs in the later '50s, especially relating to the founding of the State Agricultural College—an institution to the establishment of which he, perhaps, contributed more of wise effort than any other person.

Gen. John A. Halderman has again given bountifully from his stores of papers saved through a long period of public life, extending from the earliest Kansas days to the present time. Among these papers are many letters written by Gov. Andrew H. Reeder and other prominent public men of Kansas territorial times, and by many others in different parts of this country and of the world.

The manuscript papers of the late Hon. James Hanway, which have for a number of years been in the possession of the Society as a conditional deposit, have, through the generosity of his son, Mr. John S. Hanway, of Lane,

been brought permanently into the collections of the Society. These papers are of great interest as reflecting the life work of an earnest student, industrious writer, and faithful public servant, for many years an active citizen of Kansas and a zealous promoter of her best institutions.

Col. R. J. Hinton has contributed important additions to his former gifts, including many papers relating to early Kansas free-state immigration, to measures of resistance against pro-slavery aggression, to John Brown history, and to the war of the rebellion.

Rev. J. D. Knox has given valuable manuscript papers and books relating to the history of the freedmen's exodus from the Southern states to Kansas, and to the work of the Kansas Freedmen's Relief Association in caring for the exiles in 1879–'81.

Miss Eva Ryan, of Hiawatha, has given some autograph poems of the late Mrs. Ellen P. Allerton.

J. B. Whitaker, of Topeka, has given a large number of official papers, which illustrate the methods of the pro-slavery party in harassing and persecuting free-state settlers.

The Kansas Baptist convention, at its late session at Winfield, upon the suggestion of Rev. J. B. Thomas, of Topeka, voted to place the important papers of the convention, not needed for immediate use, in the custody of our Society. These have been brought into our collections, numbering 261 pamphlets, containing the minutes and proceedings of Kansas Baptist associations and conventions; 2,202 manuscript papers, and 37 manuscript books. Mr. Thomas contributed from his own collection 72 pamphlets. This denomination publishes more largely than any other the proceedings of its local organizations.

This is the third instance in which ecclesiastical bodies of Kansas have chosen to place in our state archives the materials of the early history of their organization and work. The two former deposits were made by conferences of the Methodist Episcopal church — the parent organization, the Kansas Conference, and the South Kansas conference. Church organizations have always been powerful promoters of the immigration of the better class of settlers into the new states. The circumstances attending the settlement of our own state invited the incoming of people imbued with religious principles and enthusiasm. The organizations of these bodies were effected at the time our earliest political organizations were being formed. The ministers of the churches were among the active men in political movements. The nature of their calling brought them into the closest relations with the people in their homes, in their social intercourse, in their educational movements, and in all the higher relations of our best elements of civilization. The history of Kansas churches is, in large part, the history of the better Kansas. Our Society has reason to feel a great degree of gratification at the confidence reposed in it as the custodian of the records of these bodies. Taken together with the very large body of original records of the work of

the early missionaries of Kansas, of Meeker, McCoy, Pratt, Johnson, Simmerwell, and others, which have been brought into our library, and of which frequent mention has been made in these reports, it may be doubted if any library in the Mississippi valley now contains so great a fund of materials of missionary and religious history as are crowded into our limited fireproof receptacle. The scantiness of the room for the placing of these precious memorials calls loudly for more ample provision for their keeping.

Rev. Lewis Bodwell, of Clifton Springs, N. Y., has given the Society a very interesting set of views of the oldest Congregational church buildings erected in Kansas, together with portraits of the pastors and their wives. Rev. L. P. Broad, included in a large gift of materials showing his recent work as missionary of the Congregational churches in Kansas, has also given pictures of two Congregational churches, one of them that of a sod church in Osborne county.

An interesting relic of war history is a map made by Col. William Tweeddale, of Topeka, showing the mode of construction of the New Madrid canal, a device which led to the capture of Island No. 10, in the Mississippi river, April 7, 1862. The canal was planned by the donor of this map and it was constructed under his supervision.

In this connection may be mentioned a set of church charts brought into the library through the World's Columbian Exposition. These charts contain data and statistics pertaining to the founding and history of 178 churches and Sunday schools of all denominations in the various counties of Kansas, in many instances with portraits of pastors and views of church edifices. These form a unique and interesting collection of materials of Kansas church history. In the gathering of this history an ingenious blank chart devised by Mrs. J. C. Trotter, of Wichita, has been used. Mrs. A. M. Clark, secretary of the World's Fair board of managers, is deserving of great credit for the interest taken by her in bringing these charts into our library.

Orville C. Brown, of Adams, N. Y., has given a large number of interesting views and portraits. Supt. W. M. Davidson, of Topeka, has given a large number of views of schoolhouses in different portions of the state. Warren Foster, of Hutchinson, has placed in our collection a very interesting memorial descriptive of Abraham Lincoln's home in Kentucky and relating to his marriage. Col. R. J. Hinton has given an interesting collection of John Brown portraiture. A very fine portrait of the late Hon. John C. Vaughan has been given the Society by Hon. Joseph Medill, of Chicago.

A life-sized portrait of Governor Lewelling has been added to our collection of portraits of Kansas governors, the gift of friends of the governor among the state officers and others.

A fine oil-painted portrait of the late Henry J. Adams, the gift of members of his family, has also come into the collections. Mr. Adams was among the most prominent of the early settlers of Kansas, was elected governor under the Leavenworth constitution in 1858, and held many positions of honor and trust. The portrait is the work of the artist George M. Stone.

In compliance with the request of the Society, Maj. James S. Phillips, of the U. S. navy, has added to our picture gallery a fine oil-painted portrait of his father, the late Col. Wm. A. Phillips.

Messrs. Pennell & Zellner, photographers, Junction City, have contributed some excellent views taken at Fort Riley and vicinity, and H. S. Stevenson, photographer, Leavenworth, has given like views of the vicinity of Leavenworth and the fort.

Dr. L. F. Wentworth, of Osawatomie, has added to our picture collection a very fine set of views taken at Osawatomie, including those of the buildings of the state insane asylum, representing various stages of the history of the growth of that institution, a view of the John Brown monument, also of the house of Rev. S. L. Adair, built by him in 1855, in which he still resides, and in which John Brown made his home during his tarrying in Osawatomie, from 1855 to 1859.

Valuable newspaper files have been given by Hon. Joel K. Goodin, of Ottawa, John S. Hanway, of Lane, A. S. Huling, of Topeka, V. J. Lane, of Kansas City, Z. F. Riley and F. A. Root, of Topeka, Gov. A. J. Smith, of the soldiers' home, Leavenworth, Mrs. Jenny M. Ward, of Ottawa, and others.

An interesting relic of the barbarism from which our country escaped during the period of the history of Kansas, is a slave shackle taken by Joseph McFarland, now of Wichita, from the ankle of a negro slave in Missouri, a short time before the war of the rebellion, and brought by donor to Kansas and deposited by him in the collections of our Society. Geo. J. Remsburg, of Atchison, has added to his former gifts of mound-builders' relics. R. J. Traver, of Leoti, has given some very interesting relics from an Indian burial receptacle in Wichita county.

Capt. P. H. Coney has added interesting relics of the Lapland exhibit at the World's Fair. Many interesting relics of the investment of the statehouse by the state militia in February, 1893, have been given by various persons of the different parties who took part in the interesting events of that brief period; among these is the sledge hammer used by Speaker George L. Douglass in opening the door of the house of representatives, and which has been deposited by him in our collections.

Among the objects of interest displayed at the World's Columbian Exposition, at Chicago, several have been deposited in the collections of our Historical Society. Among them may be mentioned that deposited by Mrs. Elizabeth Magie, of Girard, for the Grand Chapter of the Order of the Eastern Star in Kansas, being a large banner, in an elaborately carved oak frame, and showing on its face representations of the local chapters throughout the state; an elegant banner deposited by the Woman's Columbian Club of Jewell county, at the hands of Mrs. A. M. Clark; a fine carved and upholstered chair, exhibited by the Woman's Columbian Club of Nemaha county, and deposited by Mrs. Mary E. Todd, secretary; design executed on oak, in carved work and oils, for the Woman's Relief Corps, department of

Kansas, Mrs. Edith M. Wood, president, together with the six national flags used in its decoration.

Among the donors of books and pamphlets worthy of special mention, the following may be named: Kansas Baptist state convention, Rev. L. P. Broad, O. C. Brown, Mrs. A. M. Clark, F. D. Coburn, Chas. S. Davis, Henry T. Drowne, Dr. Samuel A. Green, R. J. Hinton, Indian Rights Association, C. M. Light, George T. Pierce, Z. F. Riley, Frank A. Root, Royal Academy (Stockholm, Sweden), Rev. C. S. Sheffield, Mrs. K. W. Shepperd.

OBITUARY.

During the last two years death has made sad inroads upon the prominent membership of the Society.

Col. William A. Phillips died November 30, 1893, at Fort Gibson, while on a business trip to the Indian Territory. He had always been a prominent figure in Kansas history and had been President of this Society. Memorial proceedings were had at the annual meeting in 1894.

Hon. Timothy Dwight Thacher died January 17, 1894. He had been a citizen of Kansas, with only a brief absence, since 1857, and had all the time taken a leading part in public affairs. He had been President of the Society, and always one of the most useful counselors in the conduct of its work.

Joseph C. Hebbard died January 22, 1894. He was an early citizen of Kansas, and an early member of this Society and of its Board of Directors. As a journalist, he had learned to value, more perhaps than any other, the collections of the Society, as furnishing data upon which to base exact statements in journalistic work in all matters pertaining to Kansas. His loss to the Society cannot be estimated.

Prof. Isaac T. Goodnow died March 20, 1894. He was one of the earliest settlers in Kansas, and was one of the numerous class who came to the new territory with the high purpose of aiding to establish good institutions in the new state to be founded. He came well equipped in learning and maturity of good character to perform a useful part in carrying out such aims. During his life here he occupied many positions of honor and usefulness. He was one of the most active members of the State Historical Society, and one of the most bountiful contributors to its collections.

Ex-Gov. James M. Harvey died April 15, 1894. He was a Kansas soldier in the war for the preservation of the union, a legislator, for two terms governor of the state, and a United States senator from Kansas. For a number of years he was a member of the Board of Directors of this Society, and always manifested an interest in its work.

Ex-Gov. Charles Robinson died August 17, 1894. His name, from the very beginning of the settlement up to the day of his death, was conspicuously linked with the history of Kansas. He ranked foremost among the founders of the state, and for more than a generation was one of the most

prominent of its leading citizens. One of the earliest Presidents of this Society, he was always among the most useful of its members. At our last annual meeting he was present with the Board of Directors, of which he had always been a member, and took an active and interested part in the proceedings.

Memorial proceedings respecting these late distinguished members of our Society have been initiated by our Board of Directors.

PHONOGRAPH.

The Board has ventured upon an experiment with the Edison phonograph as a means of making and preserving historical records. The experiment has been carried to the extent of procuring the records of the voices of Ex-Governors Crawford, Osborn, Glick, and Lewelling, and of Chief Justice Horton. Unfortunately, Governor Robinson was not reached in time to procure a record of his voice; but, upon request, Mrs. Robinson consented to read into the phonograph a portion of Governor Robinson's inaugural address; and thus her voice was put on record in lieu of that of her recently deceased husband's. Brief extracts from the inaugural or other official addresses have been recorded upon phonographic cylinders, to be preserved for use at any time, and for all time, as unique historical records of the voices of the representative officers of the state in the earlier period of her history. It is for the Society and the legislature to determine whether the experiment has so far demonstrated the utility of this mode of preserving history as to warrant its continuance, within such prudent limits as may be established.

ROOMS.

The subject of rooms for the accommodation of the library and collections of the Historical Society is still one of the most important that can engage the Society's attention. The legislature at its last session, 1893, granted three additional rooms, in the south wing of the statehouse, and made an appropriation for furniture and shelving for the same. These added rooms, though far short of supplying our present needs, have greatly facilitated the placing of the library and the general work of the Society.

The grant was made under a concurrent resolution in the following words:

Resolved, That the rooms now occupied by the supreme court commissioners, in the basement of the south wing of the capitol building, be assigned for the additional and temporary use of the State Historical Society, and that it shall be the duty of the state executive council to cause suitable shelving and furniture to be immediately supplied to said rooms for such use.

The Society began its work nearly 19 years ago, without need of room, except desk room for the Secretary and room for a bookcase. These simple needs were found in the state offices, generously and encouragingly given. From time to time since, as needs demanded and as far as the unfinished condition of the statehouse would admit, rooms have been provided, so that now

the Society occupies more room than any other department in the statehouse. It would occupy twice as much as now if its library and collections were suitably placed. The rooms now occupied are in different parts of the basement portion of the capitol building, widely separated, and situated in every way inconvenient for use and access to the public.

In view of the contemplated provision for the completion of the capitol building, it is urgently demanded that plans should now be adopted for permanent and ample rooms for the Society. During the last session of the legislature this subject of permanent rooms was brought before that body, and the state architect was consulted by a legislative committee; but as no action was taken for the completion of the building, nothing was done toward providing permanent quarters for the Society.

In estimating for room space for our library and collections, we have taken the rooms of the Wisconsin state historical library as in considerable measure an index of our needs. That society occupies three floors of a wing of the state capitol building at Madison, built mainly for the use of the society, and completed in 1884. Each floor containing these rooms is 106 feet in length by 62 feet in breadth. The floor space of the three floors is nearly 20,000 square feet. The area of the floor space occupied by our Society at present is about 3,000 feet. Thus, the Wisconsin society occupies nearly seven times as much room as our Society. The library of the Wisconsin society contains 160,000 volumes. Our library contains 79,000 volumes; our library being nearly one-half as large as the Wisconsin library, but possessing but about one-seventh as much room. The Wisconsin society occupies three and a half times the room of one of the floors of a wing of our state capitol building.

These statements show that our library should have provided, for its present and future needs, room space at least equal to that of two entire floors of a wing in our statehouse. These statements are based upon actual measurements. They are made in accordance with library experience and library rules derived from experience. At our present rate of increase, all the space of two floors of one of the wings of our capitol building will be required to answer the needs of our Society within the next five years. A conference with the state architect on this subject has led to the opinion, that in view of existing plans for the completion and occupancy of the capitol building, and in view of assignment of room already made and contemplated, provision for the Historical Society can best be made in the east wing, the two main floors being given for that object. The rooms on those floors, as now understood, will be mainly or wholly vacated by the departments now occupying them by their removal into other portions of the building.*

*These recommendations as to room for the permanent home for the Society in the capitol building, as made by our Board of Directors at the November meeting, 1894, received the approval of the legislature of 1895, through the passage of a concurrent resolution directing that the two floors of the east wing of the capitol below the senate chamber be fitted up for the Kansas State Historical Society, when they shall be vacated by the present occupants.

Our Society has calls for present legislative action to supply its urgent needs, as follows: Provision for permanent rooms in the completed capitol building, additional temporary room, increased funds for the purchase of books, additional appropriation for clerk hire, and provision for present printing needs. Our clerical workers—always industrious, skillful, and faithful—have never been adequately paid. Some of them should have increased salaries. And there is an imperative demand for an additional clerk.

Provision should be made at the very outset of the session of the legislature for the printing of this report and for the printing of the catalogue of the Kansas portion of our library, now ready for the printer. Our Society, as before mentioned, in respect to the printing of this report, has fallen under the misfortune resulting from the scant printing appropriation made by the legislature of 1893.

MEETINGS, 1893–'94.

BOARD OF DIRECTORS' MEETING—JANUARY 17, 1893.

The meeting of the Board of Directors, preparatory to the seventeenth annual meeting of the Society, was held in the Society's rooms, January 17, 1893, at 3 P. M.

The following members were present: Hon. Jas. S. Emery, Hon. A. R. Greene, Hon. F. P. Baker, Hon. S. C. Wheeler, Col. D. R. Anthony, Hon. William Sims, Hon. T. D. Thacher, M. Weightman, Hon. Geo. W. Martin, Hon. S. A. Kingman, Hon. V. J. Lane, Hon. P. G. Lowe, Mrs. S. N. Wood, Col. C. K. Holliday, George D. Hale, Dr. P. McVicar, Hon. W. H. McBride, Hon. John Guthrie, and Secretary F. G. Adams.

A. R. Greene, Vice President, presided, in the absence of Gov. Thos. A. Osborn, the President.

The Secretary stated the business of the meeting to be the consideration of reports of committees.

Judge Emery, for the committee previously appointed on the World's Columbian Exposition, made a verbal report, stating that the committee recommend that an exhibit be made from the collections of the Society, consisting of the portraits of prominent Kansans, of pictures illustrating the history of the state, a full collection of books by Kansas authors, as complete a collection as possible of newspapers published in one or two of the older and newer counties, and of mound-builder, Indian and other relics peculiar to Kansas history. Judge Emery mentioned that various private collections had been offered the Society by Kansas citizens for display in connection with the Historical Society's exhibit.

On motion of Mr. Baker, the committee was continued, with full power to act in all matters pertaining to the Society's exhibit, including the presentation of a bill asking the legislature for an appropriation to defray the

actual expenses of such exhibit, with the understanding that no salary should be paid from such appropriation.

The Secretary then read the report of the Committee on Nominations.

The committee appointed to make arrangements for a Whittier celebration reported that, owing to lack of time, they had done nothing in the matter, and, at their request, the committee was discharged.

A resolution was adopted requesting the incoming officers and Executive Committee to appoint a Committee on Legislation.

The Secretary presented the subject of needed additional room for the Society. On motion of Colonel Anthony, a resolution was adopted requesting the Legislative Committee to act with the President and Secretary to frame a bill for presentation to the legislature making provision for room sufficient for the present and future needs of the Society.

On motion of Judge Kingman, the President appointed the following committee of three to draft resolutions on the services and death of Col. Samuel N. Wood, viz.: Col. D. R. Anthony, Hon. J. C. Hebbard, and Hon. George W. Martin.

ANNUAL MEETING OF THE SOCIETY—JANUARY 17, 1893.

The seventeenth annual meeting of the Society was held in the senate chamber, the evening of January 17, 1893; Vice Pres. Albert R. Greene in the chair.

The Secretary read an abstract of the eighth biennial report of the Society.

Hon. W. H. T. Wakefield, of Lawrence, read a paper on "Squatter Courts in Kansas."

Colonel Holliday then gave a brief history of the origin and of the events of the "Wakarusa War."

A paper written by Mrs. Lois H. Walker (formerly Mrs. George W. Brown) was then read, relating to the bringing into Lawrence, by herself and Mrs. S. N. Wood, of ammunition from the house of Mrs. J. B. Abbott, for the use of the free-state men during the Wakarusa war, and Mrs. Wood made a brief verbal statement of her memories of the event.

The portrait of Col. S. N. Wood was then presented to the Society by his widow, Mrs. Margaret L. Wood, in the following words:

MR. PRESIDENT: One whom the people of Kansas will never forget; one who was a true friend of Kansas, and consequently a true friend of the State Historical Society, and an earnest worker for the objects for which it was instituted; one who was a friend to his fellow-men, and whose heart held a wealth of tenderness and compassion for all who suffer from wrong, oppression, and poverty; one to whom the hand of want never reached out in vain. He may have had faults; I have forgotten what they were. They called him a fighter, and a foe to be dreaded; but whether friend or foe, in the face of want and suffering, his heart was as tender as the heart of a child. That you may keep his features in mind; that you may not in this life forget him, and may know him when you meet him on the blest immortal shore of a better land, I present you this portrait of Samuel N. Wood.

Secretary Adams accepted the portrait in behalf of the Society.

Colonel Anthony read the following resolutions, which were unanimously adopted by the Society:

WHEREAS, By the hand of a cowardly assassin, the Hon. Samuel N. Wood has been taken from us; and

WHEREAS, Colonel Wood was an earnest and most useful member of this Society; a man who himself helped to make Kansas history; a leader and a tower of strength in the early struggles against slavery; a strong, earnest, aggressive laborer in the cause of right, as he saw the right; a bitter, unrelenting foe to every wrong that presented itself to him as wrong: therefore,

Resolved, That it is with deep sorrow that we have heard of the untimely and tragic death of Colonel Wood; and

Resolved, That it is our opinion that there is a radical defect in laws that are impotent to punish his assassin; and

Resolved, That we extend to his bereaved widow, who stood by him for so many years, and was in truth his helpmate in every good work, our heartfelt sympathy, and hereby express the sincere hope that she may continue long to supplement his faithful work, to which she herself so largely contributed; and

Resolved, That these resolutions be spread upon the minutes of this Society, and a copy of them be furnished to Mrs. Margaret L. Wood, the widow.

The Kansas poems of John G. Whittier were then read by Hon. T. D. Thacher. Mr. Thacher prefaced the reading by appropriate remarks relating to the character of Whittier and his great sympathy with the people of Kansas in their efforts to plant the institutions of freedom upon the soil of the new territory. The poems read were the following: "The Kansas Emigrant's Song," "Le Marais du Cygne," "The Burial of Barber," and verses relating to John Brown.

The President offered the following resolution, which was adopted, relating to the subject of private exhibits offered the Society for use at the Chicago exhibition:

Resolved, That the World's Fair committee be authorized and instructed to accept from private donors contributions to the Kansas historical collections in the Kansas building at the World's Fair exhibition, such objects of historical interest as the owners may present for that purpose, the committee to use its discretion as to accepting or rejecting such offers.

The following members of the Board of Directors were then elected, for the term of three years, ending January 21, 1896: Jas. B. Abbott, Lucien Baker, W. L. Brown, J. B. Chapman, E. B. Cowgill, Chas. Thacher, W. H. T. Wakefield, A. B. Whiting, and C. A. Woodworth; the latter to fill vacancy caused by the removal of Rev. J. W. D. Anderson from the state.

BOARD OF DIRECTORS' MEETING—JANUARY 17, 1893.

On the adjournment of the annual meeting, a meeting of the Board of Directors was held, and the following officers of the Society were elected: President, P. G. Lowe; Vice Presidents, Levi Dumbauld and V. J. Lane; Treasurer, T. D. Thacher; Secretary, F. G. Adams.

Mrs. S. N. Wood then introduced Mr. C. H. Dickson as the "boy" who assisted Mrs. Brown and herself in securing the ammunition for the Wakarusa war. Mr. Dickson gave an interesting account of his recollections of the affair.

ANNUAL MEETING, BOARD OF DIRECTORS—JANUARY 16, 1894.

The eighteenth annual meeting of the Board convened in the east rooms of the Society, Tuesday, January 16, 1894, at 2 P. M.; President Lowe in the chair.

The following members of the Board were present: Col. Percival G. Lowe, Col. Cyrus K. Holliday, Judge Samuel A. Kingman, Gov. Chas. Robinson, Hon. W. L. Brown, Hon. John Speer, Prof. E. B. Cowgill, Dr. Stephen McLallin, Hon. John Guthrie, Warren Foster, Esq., Hon. Floyd P. Baker, Dr. Peter McVicar, Hon. McCown Hunt, Col. D. R. Anthony, Hon. J. C. Hebbard, and Secretary F. G. Adams.

The Secretary read the report of the World's Fair committee, as follows, which was adopted:

The committee appointed by the Board of Directors to take charge of the Society's exhibit at the World's Columbian Exposition have to report, that

on the application of the committee, the Kansas board of managers, which was appointed under the act of the legislature making an appropriation for the general Kansas exhibit, granted to the Society the sum of $500 for use in making a historical exhibit in the Kansas building. From the library and collections of the Society a selection was made of Kansas books and pictures, and these were shipped to Chicago and placed in the rooms assigned for the Society's use. It is believed that the historical exhibit so made contributed no inconsiderable share to the interest which attached to the Kansas exhibits. Herewith is given a detailed statement (see daybook No. 2, p. 82) of the expenditures in placing, caring for, and returning the exhibit to the rooms of the Society, from which it will be seen that less than the entire sum of $500 was expended, the balance remaining in the hands of the board of managers, being the sum of $51.02.

Respectfully submitted. C. K. HOLLIDAY.
F. G. ADAMS.
J. S. EMERY.

Mr. Brown moved that, as Mr. Thacher, Major Simpson, and Mr. Greene, members of the Nominating Committee, were not present, their places be supplied by three members to be appointed by the chair. The motion was adopted, and Messrs. Robinson, Anthony and McVicar were appointed.

On motion of Colonel Holliday, the report of the Committee on Nominations was approved, for submission to the annual meeting.

The Secretary then read the annual report for the year ending November, 1893, for the consideration and action of the Board, and for submission to the annual meeting. On motion of Judge Kingman, the report was approved.

Nominations of corresponding and honorary members were then made, for the action of the evening meeting of the Board of Directors, including the following resolution, offered by Governor Robinson:

Resolved, That the chancellors and presidents of all chartered Kansas universities and colleges should, by virtue of their office, be considered as corresponding members of the Historical Society, and that certificates to that effect should be issued to such officers by the Secretary.

Judge Kingman then offered the following resolution, which was adopted:

Resolved, That the members of the State Historical Society have learned with profound regret of the sudden and dangerous illness of our late esteemed President, T. TENTH BIENNIAL REPORT.

Herewith the Board of Directors of the Kansas State Historical Society presents the tenth biennial report, showing the work of the Society during the two years ending November 1, 1896.

During the period covered by the report there have been added to the library 2,464 volumes of books, 6,314 unbound volumes and pamphlets, 2,814 volumes of newspapers and periodicals, 7,024 single newspapers containing matter of historical interest, 119 maps, atlases, and charts, 597 manuscripts, 313 pictures and other works of art, 9 pieces of scrip, currency, and coin, 476 relics and miscellaneous contributions. Thus to the library proper, of books, pamphlets, newspapers, and periodicals, during the two years have been added 11,592 volumes. Of these, 11,166 have been procured by gift and exchange, and 426 by purchase.

Totals	18,338	18,223	54,931	91,492	.....

The total of the library at the present time is as follows: 18,338 bound volumes of books, 54,931 unbound volumes and pamphlets, 18,223 bound newspaper files and volumes of periodicals; in all, 91,492 volumes.

Of the accessions of books and pamphlets during the two years, 240 volumes have been purchased and 8,538 have come by gift and exchange. Of newspapers and magazines, 186 volumes have been purchased and 2,628 have been donated to the Society. The lists and tables in the report show the sources from which all the accessions of the different classes have come.

KANSAS NEWSPAPERS.

To the bound volumes of newspapers and magazines published in Kansas, 1,499 volumes have been added during the two years. These have all been donated to the Society by the publishers. The library now contains on its shelves 12,188 bound volumes of Kansas newspapers and magazines. This is a larger collection of local historical materials of this class than is contained in any other library in the world. Of newspapers and magazines published in other states, the library contains 6,035 volumes.

SOURCES OF GROWTH.

For the purpose of augmenting the library, the law governing our Society grants 60 bound copies of all publications of the state, with one exception, for use in exchanges with other societies and institutions. Exchanges and donations have been the principal means of accession to the library. The scant appropriations provided from year to year have been a minor source of growth. Through exchanges a very successful effort has constantly been made to bring into our library the reports and published volumes of every description of the very numerous societies throughout the country engaged in promoting sociological, philanthropic and scientific pursuits, and in inquiry, experiment and investigation of every description.

The fact of the rapid growth of our library by gifts is no doubt in no small measure attributable to the prominence which Kansas has had from the beginning of its history in affairs of worldwide interest. The events of the territorial period of our history were the prelude to the civil war. From that time to the present Kansas has been eventful in social progress and in political agitation. The fact that such a state is making up a historical, scientific and political library has attracted the attention of interested individual donors and of the libraries and institutions, not only of this

country, but of the world. Our Society makes exchanges in all of the states and in many foreign countries. Thus the library is being made up with little cost to the state.

From lists and statements appended to this report it will be seen that during the two years the growth of the library and collections has been equal to that of former periods, and, in important respects, greater. Our lists of acknowledgments show that the accessions by gift and exchange during the past two years have come from more than 2,000 different sources. More than half of the persons, societies and institutions giving the publications are outside of Kansas.

Our accessions of books, pamphlets, newspapers and magazines record in detail events in all affairs of human activity; they record the thoughts, the sentiments, the social movements and the efforts at human progress in all respects. Thus a very full library of reference is being made upon all subjects of thought and inquiry. With adequate appropriations by the legislature to supply deficiencies in the classes of publications thus brought in by gift and exchange, an unequaled library of reference would grow up.

In respect to local materials, our library is not excelled by any other in any country. Authors, writers and teachers connected with our institutions of learning and with our newspaper press, and those otherwise engaged in scientific, historical, economical, political and literary investigations, are constantly consulting its collections. Thus are the treasures from this storehouse of information being brought out for the instruction of the people.

SPECIAL GIFTS OF BOOKS.

The library of Yale University has given in exchange for Kansas state publications 218 rare volumes, mostly historical. This gift was also accompanied by a large number of pamphlets. Hon. Samuel A. Green, of the Massachusetts Historical Society, has contributed over 200 books and pamphlets, chiefly relating to New England history and philanthrophy. Unique gifts have been made by Prof. Z. T. Riley, of Topeka, and Mr. C. R. Orcutt, of California, consisting of 400 volumes of out-of-date school-books, covering all departments, and ranging through the past 20 years. The American Swedenborg Publishing Company, New York city, and the German Evangelical Lutheran Synod, Concord, N. H., have both made valuable gifts of their church publications. The Western Reserve Historical Society, Cleveland, Ohio, has given over 100 volumes of Ohio state publications to complete our partial sets.

MANUSCRIPTS.

The manuscript accessions have been numerous and valuable. Prominent among them may be mentioned the personal recollections of Orville C. Brown, of Adams, N. Y., relating to Kansas territorial affairs, principally in the neighborhood of Osawatomie. Col. John Doniphan, of St. Joseph, Mo., has contributed a biography of Gen. David R. Atchison, and sketches of early Fort Leavenworth, and the pre-territorial history of the Kickapoo cannon. Gen. Charles A. Foster, of Quincy, Mass., has given 47 manuscript letters written by citizens of Kansas territory prominent in public affairs, and of dates from 1854 to 1861. Mr. Foster was himself a very active free-state man, and was elected attorney-general under the Leavenworth constitution. Col. R. J. Hinton, of Bay Ridge, N. Y., has given a large mass of autograph letters and manuscript papers, materials collected for use by him in the preparation of his volume on "John Brown and His Men," besides numerous other manuscripts relating to Kansas territorial affairs. Thaddeus Hyatt, of New York city, has given 291 letters and other papers relating to the settlement of Kansas, to Kansas political matters, and the drought of 1860-'61; Samuel F. Tappan, of Washington, D. C., manuscripts relative to the free-state guard to protect President Lincoln in the White House, at the opening of the rebellion, also papers relating to the Lecompton constitution; Capt. W. H. Ward, of Topeka, letters containing the autographs of 41 different governors and secretaries of the different states and territories in office in 1879.

PICTURES.

Of pictures added to the collection, the most noteworthy is the oil-painted and elegantly framed portrait of Senator Preston B. Plumb, painted by William A. Griffith, of Emporia, and purchased for the Historical Society by special appropriation of $500 by the legislature of 1895. The friends of the late librarian, Hamilton J. Dennis, have caused his portrait, painted by George M. Stone, of Topeka, appropriately framed, to be placed in our collection. Among other portraits worthy of mention are that of Maj. James B. Abbott, presented by his wife; that of Col. R. J. Hinton, by himself; the portraits of the early missionaries, Rev. Isaac McCoy and his wife, Christina, presented by their grandson, John C. McCoy, of Kansas City; that of Hon. George A. Crawford, presented by S. D. Macdonald; that of Mrs. Margaret R. Wickens, past department and past national president W. R. C., by the Parsons Woman's Relief Corps of Kansas; that of Rev. John G. Pratt

and wife, assistants of Rev. Isaac McCoy, presented by Mr. Pratt, still surviving, a citizen of Wyandotte county. The portrait of the author of "America," the Rev. Samuel Francis Smith, together with an autograph copy of the song, copied by him for the late Mr. T. E. Bowman, of Topeka, has been presented by Mrs. Bowman. Mrs. George Johnson, of White Rock, Kas., has given the Society a fine photographic view of the assemblage on the 29th of September last in Republic county to commemorate the first flag raising in Kansas. Messrs. Hall & O'Donald have given the Society a set of engravings of Kansas governors. M. P. Creese, Topeka, presented the Society with cabinet photos of the legislative house and senate of 1895.

RELICS AND MISCELLANEOUS.

Charles A. Foster, of Quincy, Mass., has given seven invitations and tickets to free-state entertainments in Paola, Osawatomie, and Lawrence, of dates ranging through 1857 to 1859; Thaddeus Hyatt, of New York city, a large scrap-book of 147 closely interleaved pages, containing matter from Kansas and eastern papers relating to the drought of 1860-'61 and efforts for its relief; from Mrs. George Johnson, of White Rock, and associates, many relics incident to the village life of the plains Indians, picked up on the site of the Pawnee village, Republic county, referred to at length elsewhere; from Burt O. Ogburn, Phoenix, Ariz., a collection of fragments of aboriginal pottery, arrow points, etc., from that vicinity; from George J. Remsburg, Atchison, a fine lot of relics gathered from Indian village sites, workshops, etc., in Atchison county; from H. A. Smith, of Morganville, an easel made from relics of the tornado of April 25, 1896, in Cloud and Clay counties; from J. F. Todd, of Topeka, Indian rubbing stones, plowed up in Gove county, Kansas; from Mrs. Solon O. Thacher, of Lawrence, a historic office desk used by her husband, formerly the property of Col. A. G. Boone, of Westport, of Col. A. S. Johnson, and later of various Kansas territorial officers.

PUBLICATIONS ISSUED.

During the past year the fifth volume of the collections of the Society was published, and 2,500 copies issued. Owing to lack of funds for postage and expressage, this volume has been but partially distributed among our citizens and among contributors. The volume, besides containing brief minutes of the proceedings of the Society's meetings, and the addresses delivered at annual meetings since and including 1891, completes the series of executive

minutes and documentary papers of the territorial governors. Our third volume contained the executive minutes and papers of the administrations of Governors Reeder and Shannon; the fourth volume those of Governor Geary; the fifth volume, now published, contains those of Governors Walker, Denver, and Medary, bringing up the documentary history to the time of the organization of the state, in 1861. These documentary records comprise the authentic, unquestioned materials of the history of that remarkable period of Kansas annals—remarkable not only for its local interest, but for the bearing of its events upon the history of the country.

PAWNEE INDIAN VILLAGE.

At the annual meeting of our Society in January last, a committee was appointed to investigate the subject of the situation of the village of the Pawnee Indian republic, which was visited and described by Lieut. Zebulon M. Pike in September and October, 1806. The subject had been brought to the attention of our Society by the officers of the Pawnee Republic Historical Society, an organization composed of citizens of Republic and Jewell counties residing in the neighborhood of an ancient Indian village site, believed by them to be that of the Pawnee village mentioned. In July last two members of the committee, Prof. E. B. Cowgill and the Secretary (the other member, Mr. Noble L. Prentis, being unable to participate), made as full an investigation of the subject as was practicable. The conclusion arrived at was that with scarcely a possibility of mistake the site pointed out to us by officers and members of the local society is the site of the village visited and described by Lieutenant Pike. In the first place, the description and map in Pike's report of his expedition point almost directly to the place where this village site is now found. Much additional light on the significance of Pike's journal and map has been given in the recently published annotated edition of Pike's journal, by Prof. Elliott Coues, of the Smithsonian Institution. The judgment of Professor Coues coincides with that of our committee as to the identity of the site. The investigations made by the local society mentioned support this opinion. The region of the Republican valley, above and below, has for many years been settled up and brought into cultivation. Intelligent and trustworthy officers and members of the local society have made diligent inquires of all of the inhabitants calculated to throw light upon the subject. The only other locality believed by any to have been the site of an Indian village was visited, and was found to have been only a temporary Indian camp, having no remains

characteristic of those always found on the abandoned sites of the older and permanent Indian villages. At the place now identified are clearly exhibited evidences that there was at a time as remote as that of Pike's visit an Indian village of the character described by him. In respect to this the evidences are quite conclusive. The markings conform fully to those well-known artificial features which have identified sites of other ancient villages of the Indians of the plains, notably that of the Kaw village near Manhattan, described in volumes 1 and 2 of the collections of this Society. Here upon the site of this Pawnee village are clearly marked remains of surrounding walls, and, within the bounds of the same, circular ridges showing the situations of numerous permanent earth lodges. There is the debris left from the destruction of these habitations. These evidences are distinct and unmistakable. From such considerations your committee arrived at the conclusion that the spot visited is the identical site of the village in question; there can be but a bare possibility that it can be otherwise..

On the site of this village, on the 29th day of September, 1806, Pike, by consent of the chiefs of the village, took down a Spanish flag found by him there floating, and put in its place the flag of our country; no doubt the first flag of the kind erected upon our Kansas plains.

The place where are now found the remnants of that ancient village embraces portions of sections 2 and 3, township 2, range 5 west, in White Rock township, Republic county, on the west side of the valley, across the river from Republic City. On the 29th of September last, under the auspices of the Pawnee Republic Historical Society, a multitude of people gathered on that site to celebrate the ninetieth anniversay of Lieutenant Pike's flag raising by erecting a flagstaff and displaying upon it another flag, a fine example of the flag of our country, provided for the occasion by Mrs. George Johnson, through whose intelligently directed zeal and influence is due the movement for the identification and commemoration of this village site.

STATE LIBRARY TRANSFER.

At the last annual meeting of the Society, January 21, 1896, under a resolution then adopted, a committee of the Board was appointed on the subject of a proposed transfer of the miscellaneous department in the state law library to the library of the State Historical Society. The State Editorial Association, at its annual meeting, at Leavenworth, February 17, 1896, also appointed a committee on the subject, to cooperate with the Historical Society

committee. The joint committee submitted to the Board their report, as follows:

"To the Board of Directors of the State Historical Society:

"The undersigned beg leave to report as follows: At the last annual meeting of the State Historical Society a committee was appointed to confer with the board of directors of the state law library for the object of procuring, if possible, the consent of that board to the transfer, through necessary legislation, of the miscellaneous department of the state library to the library of the State Historical Society, leaving the state library to the usual province of a library of reference for the use of the courts and attorneys and to the care of the endowed medical library which has been placed with it. Subsequently the State Editorial Association, all the members of which are members of the State Historical Society, appointed a committee to cooperate with the Historical Society in seeking such a conference. The two committees join in presenting this report to the Board of Directors of the State Historical Society.

"The board of directors of the state law library is composed of the justices of the supreme court; and, at the suggestion of Chief Justice Martin, the two committees joined in presenting to the justices a written statement of the reasons why the proposed transfer is sought. Such paper was accordingly prepared and communicated to the library directors, signed by all the members of the two committees. We herewith give a summary of the contents of the paper so communicated, as follows:

"1. Our State Historical Society is composed of intelligent citizens residing in all parts of the state, whose personal gifts of the most useful materials of popular reference contained in any state library constitute a nucleus for a great popular library of reference for the people of Kansas. In making these gifts the members of the Society have done so in the belief that the state would contribute the means for building up such a library. Instead, the means which otherwise would be given are being in part diverted to the miscellaneous department of the state library.

"2. The legislature, through the act of 1879, which recognizes the State Historical Society as the trustee of the state, and defines its duties and relations to the state, charges the Society with the duty of making up a library, and provides that rooms in the statehouse shall be given for such library. For nearly 20 years the legislature has made small appropriations for the purchase of books to augment the library. The law gives the Society also a limited number of the publications of the state for use in exchanges for the same object. The character of the library required to be made up is to be such 'as will facilitate the investigation of historical, scientific, social and literary subjects.' At the same time small and irregularly made appropriations have been made to the miscellaneous department of the state law library, a department similar in character to the library which the law requires the State Historical Society to make up. It is now sought to

concentrate this class of library work in the library of the State Historical Society.

"3. In no other state where a historical society exists constituted as is ours, does the state maintain a miscellaneous library in connection with the state law library.

"4. No miscellaneous department of any state law library has ever answered the proper needs for the information of the people of a state in their local history and for the investigation of subjects of current inquiry in history, politics, science, sociology, etc.

"5. It does not seem consistent with the intelligence of the people of Kansas that they should permit the continuance of the contention, the bad economy, the distraction in use attendant upon the effort to build up and maintain in the state capitol two libraries substantially of the same character.

"6. At the present time, when new and permanent apartments in the state capitol building are about to be prepared for the accommodation of two libraries, it seems to be most imperatively demanded that the library policy of the state should be permanently settled.

"7. It is not sought to dwarf nor diminish the dignity and usefulness of the state law library, but to leave it with its ample collection of law books, public documents and books of reference of every character desired by the courts and attorneys and by public officials in the discharge of their duties; nor is it sought to disturb the relations of that library to the endowed medical library which has been given to its care. Law libraries and medical libraries are so specifically distinct from libraries of reference in history, science, the arts, sociology, and literature, that the line of separation is broadly and distinctly marked.

"8. It is not intended to place the books withdrawn where they will be less accessible to users than if they were to remain in the state law library, but to place them with like classes of books in other convenient rooms in the state-house, where they will be free for the use of all.

"9. A question of so great importance should be decided, in view of all the public interests involved, without consideration of any personal, private or temporary interest whatever. It is not a question of personal interest or desire, but a question affecting the economical and educational interests of the people of the state for all time to come.

"The application thus presented to the directors of the state library was signed by all the members of the two committees, as follows: E. B. Cowgill, editor of the Kansas Farmer, Topeka; Hon. James S. Emery, Lawrence; George W. Martin, editor of the Kansas City Gazette; A. J. Felt, editor of the Champion, Atchison; Sol. Miller, editor of the Chief, Troy; J. E. Junkin, editor of the Bulletin and Gazette, Sterling; W. L. Brown, editor of the Journal, Kingman; D. R. Anthony, editor of the Times, Leavenworth.

"Under date of October 10 the directors of the law library made reply, declining to join in a conference, on the ground that, having been charged by the legislature with the trust of caring for the

state library, it would be unseemly for them to join in a conference having for its object a change or diversion of the trust.

"The directors of the state library having thus declined to cooperate in the proposed measure, it remains for the Historical Society to take action in the premises without such cooperation. In the judgment of the members of the joint committee, it is imperatively demanded that the Society should seek at the hands of the coming legislature the legislation so urgently demanded by the library interests of the state. We therefore recommend that our Board of Directors instruct the legislative committee of the Society to secure, if possible, the needed legislation.

"All of which is respectfully submitted.

"(Signed) E. B. Cowgill, James S. Emery, George W. Martin, Sol. Miller, J. E. Junkin, D. R. Anthony, A. J. Felt."

It will be observed that the members of this joint committee are representative citizens of Kansas—among the oldest and among the youngest; some of them of the very first pioneers in the founding of Kansas, as they were in founding this Historical Society. Failing to secure the cooperation of the directors of the state library, the committee recommends that the Society endeavor to secure the necessary legislation to concentrate and unite the miscellaneous and historical library work of the state without such cooperation. In this view the Board of Directors fully coincides, and the legislative committee of the Society has been so instructed.

If there were wanted other proof of the necessity of such legislative action than has been brought forward by our joint committee, it is to be found in the remarkable exhibit made in the biennial report of the state librarian, recently published. This report of the librarian shows that in a manner unwarranted that institution has, at the expense of the state, added during the last few months hundreds of volumes to its miscellaneous department, many of them of a historical character, and some of which were already in the library of the Historical Society. These books have been brought in through an exchange of volumes of the supreme court report for books of this character. This has been done under the alleged sanction of a law construed to authorize such exchange. For a full understanding of this subject the history of the law is given. During the later years of the state law library the legislature has repeatedly withheld appropriations for the purchase of books for the miscellaneous department, thus frowning upon the library duplication which had so long been going on through the fact of two libraries of the same kind in the statehouse. Early in the session of the legislature of 1895 a bill was in-

troduced in the house aimed to secure book accessions to the library without specific appropriations. The following is a copy of the bill:

"An act providing for the exchange of supreme court reports by the state librarian.
"Be it enacted by the legislature of the state of Kansas:

"Section 1. That the state librarian, by and with the advice of and consent of the judges of the supreme court, is hereby authorized and directed to exchange the reports of the supreme court of this state, beginning with volume 40, and including all subsequent volumes of such reports now issued or hereafter to be issued, that may be remaining in the state library after distribution has been made of such reports as provided by law, for other books for the use of the state library, to be deposited and kept in such library.

"Sec. 2. In making such exchanges, each volume of such supreme court reports shall be exchanged in quantities of not less than 25 copies at a time, and shall be rated at not less than two dollars ($2) per copy. This act shall not be construed as repealing any law now in force providing for the distribution of the supreme court reports of this state, but shall be considered as supplementary to such laws.

"Sec. 3. This act shall take effect and be in force from and after its passage and publication in the official state paper."

This bill was so obviously intended to permit an improper use of the supreme court reports that members of the legislature gave it no encouragement. But during the session an act was passed creating appellate courts for the state, one of which holds its sittings at Wichita. Late in the session the house bill here quoted was brought into the senate, slightly changed as we shall see, was introduced as an original bill, and was put through both houses, with the explanation that it was a bill to provide a library for the use of the appellate court at Wichita. The language of the law as thus passed, with the exception of a verbal change or two, is the exact language of the dormant house bill, except that the last part of section 1 is changed so as to read: "for the use of a library for the appellate court at Wichita, to be deposited and kept in such library," and the price at which the volumes of the reports are rated is raised to $2.25. On the face of the law, and according to the explanation of the senator who hastily secured its passage, its object was to provide books for a library for the appellate court at Wichita, the books so procured to be deposited and kept in such library But under the pretended sanction of this law hundreds of volumes, largely historical and miscellaneous, have been brought into the state law library, at Topeka; none have been procured and deposited in a library at Wichita. This is shown in the report of the state librarian recently published. On

page 30, under the head of "List of law and reference books added to the state library from March 7, 1895, to June 30, 1896, under the provisions of the act of March 7, 1895, entitled 'An act providing for the exchange of supreme court reports by the state librarian,'" are given the titles of 493 books, law and miscellaneous, procured at an expense, in supreme court reports, of $1,896.

There is no library for the use of the appellate court at Wichita; hence there was no propriety in procuring books at all under this law—no authority for such action. In making these exchanges and securing these books the Wichita clause of the law has been entirely ignored, and the books thus procured by exchanges of the supreme court reports have been "added to the state library," as if no Wichita library had ever been contemplated.

It does not seem that this mode of securing means to add to the books of the state can be construed to accord with the spirit of the constitutional provision which contemplates the restriction of the expenditure of the money of the state to specific appropriations made by law. It does seem that, failing to secure direct appropriations for the purchase of books, this plan of turning the property of the state into money and using the money to buy books has been resorted to, thus to gain by indirection what the legislature has refused by direct, specific appropriation. Such a subterfuge as that now inaugurated under this library-exchange law is simply an outcome of the absurd practice which has been going on for 20 years past in the feeble fostering of two libraries of the same character in the state-house. There is no precedent for such a practice. No other state carries on such a practice. In no other state where there is a state historical society, doing its work for the state, at the state capitol, is a miscellaneous department kept by the state in its law library.

It is not to be supposed that what we have here explained as the recently inaugurated practice in the state library has been sanctioned by the directors of the library, the justices of the supreme court. Necessarily the details of the business of the state law library must be left to others than the directors themselves, as is well known to be the case in the management of the work of the State Historical Society. Our Board of Directors early adopted a rule that no voucher for money to be drawn from the state treasury or from the funds of the Society should be presented until first approved by the Society's executive committee, indorsed on such voucher; and the governor of the state has for many years past been a member of our executive committee. It was originally the intention of the Historical Society that the governor and some others

of the executive officers of the state should be made by law members of our Board of Directors; and our Board now recommends to the Society that, in the contemplated legislation during the coming session, such officers of the state be added to and made members of our Board.

But three states have historical societies such as ours, building up for the state a library of history and general reference. The people of the states of Wisconsin, Minnesota and Kansas are fortunate in having the aid of such societies. These three societies have excelled all other institutions in the country, under whatever name, in the work of making up libraries of local history and of reference for the use of the people. Wisconsin now has in the library of its historical society 175,000 volumes; Kansas, 91,492; Minnesota, 50,000. The secret of their success lies in the fact that they are voluntary, non-partizan organizations of the people of the state, the members themselves making the most useful gifts, thus enabling the society to gather in the fullest materials of the history of every portion of the state. These societies are organized for the specific purpose, in the first place, of making full collections of materials of the local history of the state; and next, of making a library of general reference on all subjects. State law libraries never have done such work with any thoroughness. This arises because of the fact that the appropriate and legitimate work of a state law library is that of providing for the needs of the supreme court and other courts of a state; the making up of a law library. This is the absorbing object of a state law library; little or no attention is therefore given by state law libraries towards meeting the needs of the masses of the people in respect to libraries of local history and general reference. It was because the state law library of Kansas had not done such work that the State Historical Society was organized. Twenty years of the eventful history of Kansas had passed, and none of its materials had been brought into the state law library. There was nothing found in it to meet the demands of popular inquiry.

The Kansas State Historical Society was founded by that intelligent and thoughtful class of citizens, the early editors and publishers of Kansas. The initiatory action was taken by resolution adopted by the State Editorial Association, in April, 1875, 21 years ago. By the beginning of the year 1876 the work of making up the library had been begun, first through the gift on the part of the editors of the regular issues of their newspapers. Such gifts have from that time to the present continued to be made by all the editors and publishers of the state, until now the library of

the Society contains, as shown, bound volumes of Kansas newspapers to the number of 12,188; representing in all details the history of local events in every county and every considerable community in the state. This is much the largest collection of the materials of local history of this class contained in any library in any state or country.

Since the founding of the Society, almost its entire membership has been composed of the editors and publishers of Kansas. In undertaking to establish and to secure the permanent maintenance of a historical society for the state, its founders had reason to believe that every class of the more intelligent citizens would give it aid and encouragement, and that the state would build up around the gifts made a general library of reference, in like manner as has been done by other states which maintain historical societies. Such aid and encouragement has been given, by thoughtful and appreciative citizens of all classes. Authors and writers, without distinction, have freely given their books, pamphlets and other publications. Educators connected with all institutions of learning have, through membership of the Society, through the use of its library, and through the unreserved commendation of its work on all occasions, manifested their interest.

And the state early gave encouragement that needful aid would be given for the maintenance of the Society and the care of its library. The legislature of 1877 made an appropriation, in the language of the law, "to aid the Society in collecting books, maps, charts and papers of every kind and other materials illustrative of the history of Kansas in particular and the West in general." The act of 1879 adopted the Society as the "trustee of the state," and with the consent of the Society assumed its library and collections as the property of the state, to be kept in "convenient rooms to be provided by the secretary of state." The law provided "that, to enable the Society to augment its collections by effecting exchanges with other societies and institutions, 60 bound copies each of the several publications of the state and its societies and institutions, except the reports of the supreme court, shall be and the same are hereby donated to said Society as they shall be issued." The law made it the duty of the Society to procure, "by gift and exchange, scientific and historical reports, of the legislatures of other states, of railroads, reports of geological and other scientific surveys, and such other books, maps, charts and materials as will facilitate the investigation of historical, scientific, social, educational and literary subjects," and "to purchase books to supply deficiencies in the various departments of its collections." (Session Laws of 1877,

chapter 36, page 65; Session Laws of 1879, chapter 167, page 325; General Statutes, 1889, paragraphs 5955-5957.)

Under the sanction of such laws, and charged by the law with such duties, the Society has diligently sought to procure by gift and exchange books, pamphlets, magazines and other publications upon the subjects mentioned. In compliance with the requirements that the Society should purchase books to supply deficiencies in the various departments of its collections, such purchases have been made so far as the appropriation of money by the state has permitted, thus to carry out the obvious intention of the law that the Kansas State Historical Society should build up for the people of the state a well-rounded library of reference upon all subjects of popular current thought and investigation.

But, unfortunately, the state has not made adequate appropriations to supply the deficiencies. Instead, small appropriations have been made for the purchase of books of the classes named, and such appropriations have been divided between the State Historical Society and the miscellaneous department of the state law library. Thus no such proper library of reference is being made up by the state for the use of the people at large. Thus the money of the state is being frittered away in a feeble movement towards building up two libraries of the same kind in the state capitol. In the 15 years since 1881, there has been expended in the state library, for books of the same classes as those required by law to be brought into the State Historical Society, the sum of $8,514.92. During the same period there has been expended for such books for the library of the State Historical Society the sum of $9,051.18. In this way, during the 15 years, the total sum of $17,566.10 has been divided as shown, in the absurd practice of duplicating libraries. At every session of the legislature the two interests come in conflict before the committees of the legislature charged with the duty of preparing appropriation bills. The committees are distracted by unseemly strife and by conflicting statements as to the province of the two libraries, with the result of meagre appropriations given to both; and for the three sessions of the legislature preceding the last, such appropriation was wholly withheld from the state library.

In the hope that a full representation of this subject might lead to such legislative action as will put the library interests of the state upon a proper basis of economy and administration, we have thus at length presented the obvious reasons for the consolidation sought by the Society.

ROOMS FOR THE SOCIETY.

The legislature of 1895 passed the following concurrent resolution (No. 22):

"Relating to rooms for the State Historical Society.

"Be it resolved by the house of representatives of the state of Kansas, the senate concurring therein:

"That in the plans for the completion of the capitol building and its occupancy when completed, the rooms of the two floors of the east wing below the senate chamber, or so much of the space thereof as may be necessary, be assigned and prepared for the use of the State Historical Society for its library and museum; and that it shall be the duty of the state executive council to instruct the board of public works and state architect to make such changes in the rooms mentioned as may be necessary to carry out the purpose of this resolution."

A committee of the Board of Directors has been instructed to confer and advise with the members of the incoming executive council concerning the completion and furnishing of the rooms for the Society in the east wing, as contemplated by the resolution.

MEETINGS, 1895-'96.

MEETING OF EXECUTIVE COMMITTEE—OCTOBER 2, 1895.

At a called meeting of the Executive Committee of the Society, held in the west room, October 2, 1895, the following members were present:

Gov. E. N. Morrill, Major William Sims, Hon. F. P. Baker, Col. C. K. Holliday. Dr. S. McLallin was absent on account of sickness. Colonel Holliday presided.

The Secretary stated that the object of the call of the committee was to fill the vacancy in the office of President of the Society, caused by the death of Hon. Solon O. Thacher, which occurred on the 11th of August, 1895.

Mr. Baker moved the appointment of Gov. E. N. Morrill to fill the vacancy, and stated the reason why he thought the appointment should be made. Major Sims seconded the motion with remarks of the same tenor. A vote being taken resulted in yeas, 3: Messrs. Baker, Sims, and Holliday. Nays 1, Governor Morrill. The chairman declared Governor Morrill duly elected.

The meeting then adjourned.

TWENTIETH ANNUAL MEETING—BOARD OF DIRECTORS.

The twentieth annual meeting of the Board of Directors of the State Historical Society met in the state capitol at 2 p. m., January 21, 1896, Gov. E. N. Morrill, President, in the chair. The following members were present: E. N. Morrill, Fred. Wellhouse, D. R. Anthony, A. B. Whiting, F. G. Adams, A. E. True, J. S. Emery, S. A. Kingman, V. J. Lane, James B. Abbott, E. B. Cowgill J. Ware Butterfield, Harrison Kelley, J. E. Junkin, John Guthrie, E. J. Dallas, F. D. Coburn, and L. R. Elliott.

The Secretary read the annual report of the Board of Directors, which on motion was adopted for presentation to the annual meeting of the Society.

On motion of Mr. Cowgill, a committee was appointed to confer with the trustees of the state library, for the object, if possible, of adjusting the conflict between the state law library and the Historical Society, as follows: E. B. Cowgill, Topeka; Geo. W. Martin, Kansas City; A. J. Felt, Atchison; James S. Emery, Lawrence; F. D. Coburn, Kansas City. Mr. Coburn having declined to act on the committee, Hon. Sol. Miller, of Troy, was appointed in his place.

On motion of Judge Guthrie, the following committee of three was appointed by the President to prepare a suitable memorial of the life and character of Judge Solon O. Thacher for publication in the collections of this Society: Col. D. R. Anthony, Brinton W. Woodward, and N. L. Prentis.

The committee on nominations made their report, which, on motion, was approved for presentation to the annual meeting of the Society and of the Board of Directors.

Governor Morrill then presented the report of the Committee on Finances, which was accepted.

Governor Morrill being called away, Major Abbott took the chair.

J. C. Price, of Republic, then presented the matter of the village site of the Pawnee Republic, and exhibited some relics picked up from the locality. The following resolutions, offered by the Secretary, were then adopted:

Resolved, That the Kansas State Historical Society recognizes as of great importance the investigations made by the Pawnee Republic Historical Society, of Republic and Jewell counties, in its efforts to establish the exact location of the village of the Pawnee republic, which was visited and described by Capt. Zebulon M. Pike in the year 1806, and thus to fix the point where American occupancy under the Louisiana territory purchase first encountered Spanish occupancy, and the flag of the United States was made to supplant the flag of Spain.

Resolved, That the information already gathered by that society,

supported as it is by the testimony of the distinguished investigator and antiquarian, Prof. Elliott Coues, leaves little if any question that that village site had its location near the Republican river, on portions of sections 2 and 3, township 2, range 5 west, in White Rock township, Republic county.

Resolved, That a committee of this Board be appointed to cooperate with the Pawnee Republic Historical Society in definitely determining that location, and in recommending such action as may be deemed advisable towards suitably marking the place by monument or otherwise.

The President appointed the following committee, in accordance with the foregoing resolution: F. G. Adams, E. B. Cowgill, and N. L. Prentis.

Judge Kingman proffered his resignation as a member of the Board of Directors. On motion of Judge Guthrie, the resignation was accepted, and Judge Kingman was nominated as an honorary member.

On motion of Secretary Adams, Miss Lucy D. Kingman was nominated to fill the vacancy caused by the resignation of her father.

On motion, the meeting adjourned.

SECTION 1. The State Historical Society, heretofore organized under the incorporation laws of the state, shall be the trustee of the state, and as such shall faithfully expend and apply all money received from the state to the uses and purposes directed by law, and shall hold all its present and future collections and property for the state, and shall not sell, mortgage, transfer or dispose of in any manner or remove from the capital any article thereof, or part of the same, without authority of law; provided, this shall not prevent the sale or exchange of any duplicates that the Society may have or obtain. There shall continue to be a Board of Directors of said Society, to consist of as many members as the Society shall determine, and who shall have the same powers as the present Board of Directors.

SEC. 2. It shall be the duty of the Society to collect books, maps and other papers and materials illustrative of the history of Kansas in particular, and the West generally; to procure from the early pioneers narratives of events relative to the early settlement of Kansas, and to the early explorations, Indian occupancy and overland travel in the territory and the West; to procure facts and statements relative to the history and conduct of our Indian tribes, and to gather all information calculated to exhibit faithfully the antiquities and the past and present condition, resources and progress of the state; to purchase books to supply deficiencies in the various departments of its collections, and to procure by gift and exchange such scientific and historical reports of the legislatures of other states, of railroads, reports of geological and other scientific surveys, and such other books, maps, charts and materials as will facilitate the investigation of historical, scientific, social, educational and literary subjects, and to cause the same to be properly bound; to catalogue the collections of said Society for the more convenient reference of all persons who may have occasion to consult the same; to biennially prepare for publication a report of its collections, and such other matters relating to its transactions as may be useful to the public; and to keep its collections arranged in suitable and convenient rooms, to be provided and furnished by the secretary of state, as the Board of Directors shall determine; the rooms of the Society to be open at all reasonable hours on business days for the reception of the citizens of this state who may wish to visit the same, without fee; provided, that no expenditure shall be made under this act or expense incurred except in pursuance of specific appropriations therefor, and no officer of said Society shall pledge the credit of the state in excess of such appropriation.

SEC. 3. The Board of Directors shall keep a correct account of the expenditure of all money which may be appropriated in aid of the Society, and report biennially to the governor a detailed statement of such expenditure. To enable the Society to augment its collections by effecting exchanges with other societies and institutions, sixty bound copies each of the several publications of the state, and of its societies and institutions, except the reports of the supreme court, shall be and the same are hereby donated to said Society as they shall be issued—the same to be delivered to the Society by the secretary of state or other officer having custody of the same—to include also for deposit in its collections one set of all the publications of the state heretofore issued, not excepting the supreme court reports. The Society shall not expend its resources in procuring duplicates of such publications as may be in the state library.

SEC. 4. This act shall take effect and be in force from and after its publication in the Topeka *Daily Commonwealth.*

Approved March 10, 1879.

ELEVENTH BIENNIAL REPORT.

The Board of Directors of the Kansas State Historical Society, in presenting the eleventh biennial report, congratulates the Society on its continued prosperity. The report shows the work of the Society during two years, from November 1, 1896, to November 1, 1898. In some respects the growth of the library and collections has exceeded that of any two years in the preceding history of the Society; and that, too, notwithstanding unusual embarrassments.

YEARLY GROWTH OF THE LIBRARY.

The following statement shows the yearly growth of the library during the twenty-three years from 1876 to 1898, inclusive:

Totals	21,027	20.881	60,417	102,325	.....

During the two years there have been added to the library 2689 volumes of books; 5486 unbound volumes and pamphlets; 2615 volumes of newspapers and periodicals; 697 single newspapers containing matter of historical interest; 110 maps, atlases, and charts;

255 manuscripts; 382 pictures and other works of art; 31 pieces of scrip, currency, and coin; 391 relics and miscellaneous contributions; 9 war relics. Thus to the library proper, of books, pamphlets, newspapers and periodicals during the two years have been added 10,790 volumes. Of these, 10,337 have been procured by gift and exchange, and 453 by purchase.

Of newspapers and other periodicals now being published in Kansas, our list shows 781 in all: 51 dailies, 622 weeklies, 83 monthlies, 10 quarterlies, 6 semimonthlies, 3 semiweeklies, 1 bimonthly, and 5 occasional. The regular issues of all these, with scarcely an exception, are being given the Society by the publishers, and are bound in annual or semiannual volumes.

BOOK-PURCHASE LIMITATION.

The last legislature placed a limit upon the character of the books to be purchased by our Society. The item of appropriation for the purchase of books is in these words: "For the purchase of books, exclusively relating to the history of Kansas, $500"; this for each of the two fiscal years. The language of the clause "exclusively relating to the history of Kansas" is capable of two constructions. In its meaning, it might, on the one hand, be construed to intend to restrict the Society to the purchase solely of books written as histories of Kansas, or of some parts of Kansas, and so entitled, and to books written about Kansas in some respect and containing matter in some sense of a historical character. On the other hand, the clause might be considered to intend only to restrict the Society to the purchase of books containing matter having relation directly or remotely to the history of Kansas—all such books as may be useful to the people of Kansas in studying the history of the state in all respects; in the study of its antiquities, the sources from which its people and their customs and institutions sprung, and to the circumstances and conditions which have had a bearing upon the founding, settlement, growth and development of the state in every way.

In respect to the former class of books—books written as histories of Kansas, or of some parts of Kansas—such books are donated to the library, not purchased. All the older books of this class were long ago gathered into the library, either by gift or purchase. Those of more recent date—those written and published since the organization of our Society—have all come in by gift. The authors of these have largely found in our library the materials of the histories which they have written. They have in return given their books to the Society, with pleasure and with gratitude. Indeed, everything written and published by Kansas writers and authors, whether it be about Kansas or otherwise, is freely given the Society. There is little need of

the appropriation of money by the legislature for the purchase of such books. Practically, then, taking the former construction of the limiting clause in the appropriation bill as the intention of the legislature, little of the appropriation could be expended for the purchase of books. The Board of Directors has adopted the other construction, and, guided by it, has aimed to comply with the will of the legislature. Books containing matter relating to the history of Kansas are to be found in every class. Such are books of history of the United States; books relating to the slavery agitation of the country; books relating to the history of the war of the rebellion, and such as relate to the history of the development of the country in all respects—political, social, educational, and scientific. It cannot be considered that it was the intention of the legislature of 1897, by the few limiting words in the appropriation bill, to wholly repeal the provisions of the law of 1879, which makes it the duty of the Society to make up a library of general reference upon all subjects. It is more reasonable to consider that the legislature intended to caution the Society, under the apprehension, or misapprehension, perhaps, that, under the law of 1879, the Society had too far broadened out the scope of its work. The Society has in good faith accepted the caution.

BOOK ACCESSIONS BY GIFT.

The kinds of books which shall make up the library of the Society does not much depend upon purchases. Much the larger part of the library has been made up by gift and exchanges. Of the 10,833 books, pamphlets and newspaper volumes here reported as having been added to the library during the last two years, 453 have been purchased and 10,380 have come in by gift and exchange. The founders of the Society begun the library by gifts of their own and by soliciting gifts. The law governing the Society makes it our duty to procure by gift. It also gives the Society, for the object of augmenting its library through exchanges with other societies and institutions, sixty bound copies of all the publications of the state and of its institutions, save two. The supreme court reports and the session laws are alone excepted. The libraries of all the older historical societies of the country have been wholly made up by gift; of gifts either of the books themselves or of purchases from funds given by members and others for that object. It was left for the people of our newer Western states to inaugurate the plan of historical societies maintained in part by public funds. And that has been found to be the better way. The best state historical society library in the country is that of Wisconsin; the second best is that of Kansas. The state pays for the work and gives housing; gives also a small appropriation for books. The Society

buys, solicits, receives, acknowledges, arranges, places, catalogues, and makes accessible to the public.

Of the accessions by gift here reported as having been made during the past two years, in the first place the newspaper publishers of the state have given 1565 volumes of files of their papers. Of the gifts besides, that from the library left by our late lamented Vice-President, Maj. James B. Abbott, is the most noteworthy. The gift, consisting of 358 books and 196 pamphlets, was made during the past year by his widow, Mrs. Elizabeth Watrous Abbott in accordance with his expressed desire. The books are chiefly of history, science, philosophy, sociology, and literature. Major Abbott, though one of the most modest and unassuming of men, was a learned thinker, alive in thought and action to all measures of human progress. He was a lover of his fellow men, and in sympathy with every movement for their advancement, and his library reflects his character. Among the earliest of Kansas pioneers, he entered with his whole heart into the work of making Kansas free, and of thus adding to the area of human freedom in the country, and lessening that of human bondage. Of that work, none did more than he, none displayed greater courage, none made greater sacrifices. He long lived to witness the growth of the state upon the foundation which he so well helped to lay. He helped to frame the laws and to found the institutions of the state. He was one of the most useful members of our State Historical Society. The gift of his library was a most natural final manifestation of his love for the people of the great state of which he had been among the most useful of its citizens. It is impossible for the Society to suitably manifest its gratitude and appreciation. Mrs. Abbott, his sympathizing helpmate in all his Kansas life, with most generous zeal, not only placed their library of books in our keeping, together with the cases in which they had been kept in their home, but also put with them a large number of pictures and maps, many of them of great interest. In the gift is also a case of relics of history, objects of science, coins, medals, and family keepsakes and curios. These museum objects, interesting in themselves, with an added interest coupled with the names of the donors, will ever remain among the most attractive collective gifts which the Society can possess. These are shown in our lists of pictures; scrip, coins, and medals; maps, charts, and atlases; and miscellaneous contributions and relics.

The gift of 128 volumes of books made by Mrs. Ellen J. Tingley, of Greencastle, Ind., from the library of her husband, the late Dr. Joseph Tingley, of Campbell University, Holton, Kan., is the next largest addition of books by gift. Professor Tingley, a veteran instructor, had gathered into his library a rare collection of books of

science, education, philosophy, and history. Of these classes are the books we have received. Mrs. Tingley, herself deeply interested in Kansas institutions, was prompted in her act of giving by the interest of her friend, Prof. Frank S. Ditto, of Du Pauw University, Greencastle, himself from childhood a resident of Kansas and a graduate of our own Washburn College.

Our lists of donors of books and pamphlets show noteworthy gifts made by Prof. W. D. Alexander, of Honolulu, Hawaii; the late Rev. C. D. Bradlee, of Brookline, Mass.; Hon. F. D. Coburn, of Topeka; Grant W. Harrington, of Hiawatha; the Indian Rights Association, of Philadelphia: the government of Mexico, through its secretary of the interior; the Minnesota Historical Society, Minneapolis; Hon. Geo. T. Pierce, Osawatomie; Frederick D. Richards, historian of the Mormon church, Salt Lake City; Mrs. M. Weightman, Topeka; the Wisconsin Historical Society; Prof. Frank S. Ditto, of Du Pauw University; Dr. S. G. Stewart, of Topeka. These names are those of but a few of the hundreds of thoughtful contributors.

We might go back over the history of the building up of our library, recalling many instances of large gifts showing the real sources of its growth. This has been mainly due to the affectionate pride and interest of those who have helped to make Kansas, and to found and foster its best institutions. A policy which would dwarf the scope of the library, and discourage givers, cannot certainly be the will of the people of Kansas.

ACCESSIONS FROM EXCHANGES.

There has been a persistent effort on the part of the Society to make the best possible use of the Kansas state publications given by law for use in exchanges. This has been one of the principal sources of the growth of the library. Thus have been brought in the reports and published volumes of other historical societies and of the numerous other institutions throughout the country engaged in promoting sociological, philanthropic, educational and scientific pursuits and investigations of every description. Through this means the library has become a very full one of reference upon all subjects of current interest among the people.

"LAWRENCE REPUBLICAN" FILES.

A rare occasion for the purchase of Kansas historical materials occurred during the past year in securing, at a cost of seventy-five dollars, a collection of early Kansas newspapers, preserved by the late W. I. R. Blackman, of Lawrence. The collection embraces twenty-eight volumes, the most important of which are files of the *Lawrence Republican* of the years 1857 to 1862, inclusive. This paper was

edited by the late T. Dwight Thacher, and covers a period of Kansas history in no other way so fully and faithfully recorded. Mr. Thacher, so long one of the most zealous and useful members of our Society, greatly desired that this collection should be brought into our library, but the family of Mr. Blackman tenaciously held it until by good fortune it has been secured as stated.

MANUSCRIPT ACCESSIONS.

Our accessions of manuscripts have been unusually large and valuable. The gift by Mrs. Elizabeth W. Abbott of the manuscript account-books of her husband, the late Maj. Jas. B. Abbott, is of especial interest. They show his pioneer business transactions, the business of the Shawnee Indian agency for many years during his term as Indian agent, and some of the books of his predecessors; they show the business of the De Soto Town Company, and of many other enterprises in which he was engaged as one of the founders of the state. The gift includes many papers showing Major Abbott's membership and work in connection with many societies and institutions. Hon. Orville C. Brown, of Adams, N. Y., has added to the large number of manuscripts formerly given by him. William E. Connelley, of Beatrice, Neb., has contributed a biographical sketch of the late Hon. Abelard Guthrie, of Wyandotte county, together with copies of seven manuscript books containing the diaries kept by Mr. Guthrie between the years 1848 and 1865, containing much information put on record by a very active, industrious and enterprising early pioneer; also sketches of Russell Garrett, Gov. William Walker, Isaiah Walker, and others; also numerous letters, copies of diaries kept by members of the Wyandotte Indian nation, and other important historical papers. Prof. John. B. Dunbar, of Bloomfield, N. J., has given a manuscript copy of the journal of the expedition of M. de Bourgmont from Fort Orleans, in Missouri, to the Padoucas or Comanche Indians, on the plains towards the sources of the Kansas river, June to November, 1724. Hon. William Hutchinson, of Washington, D. C., has contributed a manuscript history of the investigation of claims for losses during the troubles in Kansas in 1855 and 1856, together with an account of the efforts made to procure their payment by congress. Hon. John Martin, of Topeka, has given interesting papers written by W. D. Jennerson, relating to a raid made by a band of Quantrill's men along the Santa Fe trail in 1863. Capt. H. E. Palmer, of Omaha, has contributed interesting papers relating to services rendered by the Eleventh Kansas cavalry in the war of the rebellion. Mrs. W. C. Webb has given a large number of manuscript papers of her husband, the late Hon. W. C. Webb, of Topeka.

PICTURES.

Our list of pictures shows interesting accessions. The largest single donation of these has been that made by Mrs. Elizabeth W. Abbott from the collection of herself and husband, the late Maj. James B. Abbott. William E. Connelley, has contributed five pictures of persons among the earliest residents of pre-territorial Kansas, chiefly of Wyandotte county, including a portrait of Gov. William Walker, the first provisional governor of Kansas, 1853. A fine crayon of Col. William F. Cloud, given by the Second Kansas Regimental Association at their meeting in connection with the annual soldiers' reunion, September, 1898, is worthy of special mention. E. S. Tucker, of Lawrence, has given a fine collection of photos, principally of Governor and Mrs. Chas. Robinson (taken at different periods) and of their friends. The gift of an excellent oil-painted and elegantly framed portrait of the late Hon. Alfred Gray, by Mrs. J. C. Wolfe, of Kansas City, is especially noteworthy.

RELIC OF FRENCH OCCUPATION.

Through the courtesy of F. L. Gaines, superintendent of the new Melan arch bridge, there was brought into our collections an antiquarian relic, consisting of an oar, twelve feet in length, evidently employed as a steering oar in the navigation of the Kansas river by pirogues, in the trapping and trading period of the French or Spanish occupancy. It was found imbedded at a depth of twelve or fifteen feet in the island which existed midway of the old bridge, and which was removed during the construction of the new bridge. The date "1794" is carved on the oar. It was given the Society, at the suggestion of Mr. Gaines, by Herbert G. Titt, who found it.

WILDER BUST.

At the last annual meeting a bronze bust of Hon. D. W. Wilder, one of the distinguished founders of this Society was presented to the Society by Hon. Eugene F. Ware, a very appropriate and interesting addition to our collection. Mr. Ware accompanied the gift with the following note:

> I retain my proprietary interest in the bust until it can be determined whether or not the state will give the Society proper rooms and necessary facilities in the state-house. If not, I will remove the bust elsewhere.

This note is highly indicative of a sentiment which must prevail more or less among the citizens of the state who are interested in building up the Historical Society. No doubt there is a feeling among such that there has been neglect on the part of the state to adequately provide for the proper housing and display of the collections of the Society. On motion of Hon. Samuel A. Kingman, a reso-

lution was adopted highly expressive of the Society's appreciation of the gift of this bust.

PORTRAITS AND BIOGRAPHIES.

In pursuance of a resolution adopted at the last annual meeting, there have been collected a large number of biographical sketches and portraits of the present and former members of the Board of Directors of the Society. They are shown in this report under the names of the contributors, in the lists of manuscripts and pictures.

UNION OF LIBRARIES.

Hon. Geo. W. Martin, at the last annual meeting, moved a resolution expressive of the judgment of the Society that all controversy with the state library concerning the combination of its miscellaneous department with the library of the State Historical Society should end. The resolution was unanimously adopted. Thus, after a long and unprofitable contention, in the belief on the part of the Society that it would be better for the state that it should maintain in the state-house but one historical and miscellaneous library, it has been determined by the Society to cease the contention.

ROOMS FOR THE SOCIETY.

The embarrassments caused by reason of the scant and unsuitable rooms for the Society still continue. The state executive council has deemed it necessary to expend the scant funds given by the legislature towards the completion of the state-house upon other portions of the building, but we now have reason to hope that within the next few months the basement and first story of the east wing will be fitted up for the use of the Society, in accordance with the terms of concurrent resolution No. 22, adopted by the legislature of 1895. The resolution is in the following words:

Relating to rooms for the State Historical Society.

Be it resolved by the House of Representatives of the state of Kansas, the Senate concurring therein: That in the plans for the completion of the capitol building and its occupancy when completed, the rooms of the two floors of the east wing below the senate chamber, or so much of the space thereof as may be necessary, be assigned and prepared for the use of the State Historical Society for its library and museum; and that it shall be the duty of the state executive council to instruct the board of public works and state architect to make such changes in the rooms mentioned as may be necessary to carry out the purpose of this resolution.

Meantime the work of the Society is seriously hampered by reason of the very crowded condition of our rooms, our shelves, and the numberless nooks and corners in which our collections are necessarily placed, adding largely to the labor of keeping the library accessible, so as to meet the demands of the constantly increasing number of inquirers for information.

REDUCTION OF APPROPRIATIONS.

In the midst of this embarrassment, the legislature a year ago cut off one-fifth of the Secretary's salary, and reduced the appropriations for clerk hire to little more than two-thirds the usual sum.

DEATH OF PRESIDENT KELLEY.

Since the publication of our tenth biennial report, the Society has been deprived of a President, by death. At the annual meeting two years ago, Hon. Harrison Kelley was chosen President for the term of one year, to end January, 1898. He died after a lingering illness, at his home in Burlington, July 24, 1897. General Kelley was a distinguished citizen of Kansas. He had served in important local positions in his county, as a state senator, and as a member of congress, and he was, at the time of his death, president of the board of regents of the state agricultural college. In his death the Society and the state suffered an irreparable loss. It devolved upon the Executive Committee of the Society to fill the vacancy caused by the death of President Kelley. The committee tendered the appointment to Dr. Peter McVicar, but Doctor McVicar, owing to ill health, declined to accept the office. The committee then unanimously appointed Hon. John Speer, for the unexpired term. At the annual meeting, January 18 last, Mr. Speer was elected President for the term to expire at the annual meeting January 17 next.

At the Secretary's request, Mr. Connelley had brought the manuscripts to Topeka in order that the Board of Directors at this meeting might take such action as might be thought best in reference to securing the manuscripts for the Society's use. Mr. Charles S. Gleed, who had seen the manuscripts, also made a statement testifying to their value.

WHEREAS, The developments made by Mr. Brower in his examinations in the central portion of the state have been of a unique and interesting character; and

WHEREAS, The information obtained by the author and recorded in the interesting memoir he has prepared leads us to believe that the subject of the earliest occupancy of Kansas has not by any means been thoroughly investigated; and

WHEREAS, The chief purpose of the existence of this Society is to secure and record the history of Kansas from its beginnings; therefore,

Resolved, That we do hereby appoint a committee, consisting of the Vice-President of the Society, Mr. Eugene F. Ware, the Treasurer, Mr. John Guthrie, and Mr. L. R. Elliott, who may in their discretion, and in the name of the Society, and under its auspices, arrange for the continuance of the investigations begun by Mr. Brower, and for the publication of the results thereof in a volume which shall be of a style creditable to this Society and to the state of Kansas, or in the regular series of volumes of the collections of the Society. And that we may avail ourselves of the valuable services and ripe knowledge of Mr. Brower, who also is a corresponding member of the Society, we hereby cordially invite him to act with the above-named committee. Also,

Resolved, That the committee herein named be requested to procure from Mr. Brower the use of the illustrative cuts and maps now in his possession, to the end that the new volume to be prepared may contain the important matter presented in the memoir this day dedicated to this Society, as well as all such additional information as the contemplated investigations of the committee may develop.

Judge Kingman offered the following resolution which was adopted on motion of President Speer:

Resolved, That hearty thanks be offered to Mr. Ware for his generous gift, valuable as a work of art, but precious to us as a perfect presentation of an early and tried friend and former President of the Historical Society and doubly prized as linking the name of the munificent donor with that of Mr. Wilder in a perpetual memorial of these two esteemed members of our Society.

Col. Alex. S. Johnson then presented a gavel obtained by Mr. E. P. Diehl, of Johnson county, and made from the wood of an English Golden Russet apple tree, which was planted by the Rev. Thomas Johnson, on the farm of the Shawnee Manual Labor School, Johnson county, Kansas, in 1837.

MEETING OF THE BOARD OF DIRECTORS—NOVEMBER 15, 1898.

The November meeting of the Board of Directors of the Kansas State Historical Society was held in the west rooms, November 15, 1898, to consider the eleventh biennial report.

In the absence of the President, Hon. John Speer, detained at his home through illness, Hon. Eugene F. Ware, First Vice-President, presided.

There were present the following members of the Board: Col. Horace L. Moore, Dr. Geo. Leis, Capt. John G. Haskell, Hon. J. S. Emery, Hon. Geo. W. Martin, Hon. John Guthrie. Hon. W. H. Barnes, Hon. F. P. Baker, Hon. William Sims, Dr. Peter McVicar, Prof. L. D. Whittemore, Hon. E. F. Ware, Harold T. Chase, L. R. Elliott, Miss Lucy D. Kingman, Hon. Fred Wellhouse, Fred O. Popenoe, Prof. E. B. Cowgill, Col. E. J. Dallas, Hon. F D. Coburn, and Secretary F. G. Adams.

The Secretary read letters from the daughters of Hon. John Speer and Hon. V. J. Lane, stating the serious illness of their fathers, and expressing regret that they were unable to attend the meeting; a telephone message from A. B. Whiting mentioned that he would be necessarily absent on account of the celebration of his fortieth wedding anniversary.

A letter from Hon. D. W. Wilder was read, explaining the reasons for his absence. The letter also contained the following suggestion, the subject of which, on motion, was referred to a committee of three to be appointed by the President, for action at the January meeting of the Board:

> I have a proposition to make: The Centennial managers at Philadelphia, about 1874, called upon states, counties and towns to signalize 1876 by pub lishing histories. A good response was made in the states, and especially in Kansas, with new county histories. I found time to compile the "Annals."
>
> Now we are near the end of the century. I want our Society to father a movement for new local histories all over the state. The editors, all of whom are members of the society, are the men who will make the most numerous responses. But city councils and county commissioners will also take up the patriotic work. Mr. Frank Montgomery will complete the "Annals." The State Historical Society can greatly aid in the work.

The Secretary then read the eleventh biennial report, which, including the financial report of the Executive Committee, on motion of Judge Guthrie, was adopted and ordered to be printed.

Mr. Ware stated that urgent business compelled him to retire. He called Mr. Dallas to the chair.

Colonel Moore, from the committee on the subject of proposed legislation to secure the recording of vital statistics, stated that he had examined the laws of Eastern states on this subject, and had selected that of Massachusetts as most applicable to the needs of our state. He had

secured from Judge Guthrie the promise to draw up a bill, patterned after this law, to be submitted to the coming legislature. He thought the records of marriages as now preserved by the probate courts were adequate, and that the new law should have special reference to the preservation of records of births and deaths.

Judge Guthrie called the attention of the Board to the Society's lack of room. He also said that an effort should be made with the coming legislature to restore the appropriations in salaries and clerk hire which were reduced by the legislature of 1897. On his motion, the President was instructed to appoint a committee of seven to coöperate with the President and Secretary for the purpose of securing through the executive council the rooms accorded the Society by the legislative resolution of 1895. The President was also instructed to appoint a new Committee on Legislation.

Mr. L. Vernon Briggs, secretary of the Old Colony Commission, Boston, was elected an honorary member of the Society, by nomination of Secretary Adams.

Judge James S. Emery, on motion of Mr. Leis, was invited to prepare a paper of reminiscences relating to the early history of Kansas for filing among the manuscripts of the Society.

Mr. Cowgill spoke of the importance of securing the coöperation of local historical societies throughout the state, and suggested that this might be done by giving some officer or other member of such societies representation on the Board of Directors of the State Society. On motion, he was requested to formulate a resolution to that effect for presentation to the annual meeting of the Board.

The following resolution offered by Colonel Moore, at the suggestion of Doctor Gill, secretary of the State Board of Health, was then adopted:

Resolved, That, in the opinion of the Board of Directors of the State Historical Society, at its meeting, November 15, 1898, the vital statistics of the state, being of so great importance, should be carefully collected and preserved in such manner as shall secure them for future use; that the state health authorities, as now organized, should be strengthened, and collection of said vital statistics be facilitated by additional legislation.

On motion, the meeting adjourned.

FINANCIAL REPORT, 1897.

The following financial report of the Executive Committee for the year ending October 30, 1897, was included in the annual report of the Board of Directors referred to in the proceedings of the annual meeting, January 18, 1898 (see page 13):

Receipts.

REPORT OF SECRETARY.

To the Board of Directors of the Kansas State Historical Society:

THE work of the Society during the year 1900 has been quite satisfactory. It still enjoys much of the impetus given by the labors and reputation of Franklin G. Adams. The statistics furnished from the record show the usual quantity of accessions in all lines, while the observations I have been enabled to make point to an increased interest, and great possibilities when suitable conveniences are provided for the collections of the Society.

In no branch of public administration or business association is the activity of the people and the magnitude of the state of Kansas so vividly and completely shown as in the records and operations of the State Historical Society. The scope of its organization and work is probably broader than that of any similar institution in the country. On its shelves and within its cases are embraced the results of forty-five years of world-famous political and social controversies, the thought, discussion and accomplishments of a hundred religious, fraternal, civic, reform and business associations, the industrial energy and force and the individual biography of all classes of citizens, from those of prominence to the humblest, which have constituted the warp and woof of the most conspicuous and advanced commonwealth on the globe.

The duty of such wide collection elsewhere is generally distributed through a variety of agencies, but in Kansas the functions of this Society cover all. Within these rooms the state centers; here every movement of its people, the record of the individual in politics, business, literature, or otherwise, is gathered and closes. Several local communities find here records of their own they do not possess themselves. The men who founded this Society and guided it in its earlier years may not have builded better than they knew, but they builded far greater than anybody dreamed of. The Society is not alone a gatherer of historic incidents, but its chief duty seems literally to be the extension and preservation of the lives of the women and the men who have made the state.

In a recent article Hon. E. F. Ware says: "Next thing to having heroes is having historians. A hero who does not get into history is practically wasted. Heroism without history is like a banquet with-

out a guest. The great charm of Kansas is the fact that it has had both heroes and historians. A good printed history is like a bank. In it the valuables and the jewels of the state are kept. Into this bank goes the surplus greatness of the people and of the state." There could be no better statement of the organization, purposes and results of the Kansas State Historical Society.

During the biennial period closing with the 31st of October, 1900, there have been added to the library 2024 volumes of books; 7001 unbound volumes and pamphlets; 3026 volumes of newspapers and periodicals; 2158 single newspapers and magazines containing matter of historical interest; 335 maps, atlases, and charts; 762 manuscripts; 513 pictures and other works of art; 123 pieces of scrip, currency, and coin; 304 relics and miscellaneous contributions; 477 war relics. Thus to the library proper of books, pamphlets, newspapers and periodicals during the two years have been added 12,048 volumes. Of these, 11,777 have been procured by gift and exchange, and 271 by purchase.

As we are closing the twenty-fifth year since the organization of the Society, the following statement of the yearly growth from 1876 to October 31, 1900, may be of interest:

These figures represent the labor of twenty-five years in gathering the record of forty-six years, practically, of white settlement, including such Indian operations and military and other explorations obtainable antedating that period. It is most complete, and yet there is much missing. This vast accumulation of priceless matter has cost the state but an insignificant sum, aside from quarters in the capitol and some very ordinary salaries, being the gift of many earnest and enthusiastic citizens, prompted by a state pride nowhere surpassed. An abiding faith that suitable accommodations would ultimately be furnished the Society's collections has always existed, but an increased interest during the year just closing, incident to an historic revival upon the close of the century, assures me that when this great collection mounts the elevator, and leaves the musty cellar and the floor of the dingy corridors and cramped quarters in the basement, for the heavenly sunlight and breezes of Kansas to be had on the fourth floor of the capitol building, the people of Kansas will pour in treasures in increased volume. We all know that many strange and remarkable people live in Kansas—men who have cut much figure elsewhere—and a year's experience in this position satisfies me that a museum of startling variety and worth can be had by the state when suitable quarters for the same are known to exist.

The Kansas State Historical Society and its great work are the result of a resolution adopted by the Kansas Editorial Association at Manhattan, April 7, 1875. The resolution was introduced by Daniel W. Wilder. Floyd P. Baker, Daniel R. Anthony, John A. Martin, Sol. Miller and Geo. A. Crawford were named as a committee to organize the Society and appeal to the legislature for certain aid. The Society started with one bookcase in the office of the auditor of state, when Mr. Wilder was auditor, and John Francis, treasurer of state, granted his clerk, Franklin G. Adams, sufficient time to attend to it. The new enterprise shortly expanded until it was granted a lonely corner ten or twelve feet square under the stairway leading to the gallery of the senate chamber in the old east wing. It has constantly grown faster than the accommodations possible in the progress of the state capitol, and now, at the end of its quarter of a century, it leaps to the very top.

I can conceive of no more fitting or happy celebration of our quarter-century anniversary than the change of quarters determined upon. The legislature of 1895 granted the Society the use of both floors of the east wing under the senate chamber, but it has been apparent for a year or so that the space would not be ample or the location satisfactory. There was no direction in which the collection might grow, it would be divided between two floors, and in the proper adjustment

of space for the administrative departments it was altogether inconvenient. Then, too, the east wing is thirty years old, and is in need of overhauling in order to conform with the main building. Through the thoughtful consideration of the members of the executive council, the whole of the south wing on the fourth floor was tendered the Society in lieu of the space in the east wing. The executive committee of this Society promptly met and accepted the same, waiving all rights granted by the legislature to the east wing. Many directors and friends of the Society were consulted, and unanimous pleasure prevailed with them, while the relief to those promoting the work on the building in getting our material out of the corridors on the ground floor and out of the cellar will be marvelous.

These new quarters will afford the Society 9000 feet of floor space and 1100 running feet of wall surface, sixteen feet high, in well-lighted rooms and portions of the corridor. The rooms are ready, excepting the making of a couple of archways and two or three doors. Six rooms will be furnished immediately, and two others later, now reserved for legislative committee purposes this winter. The fourth floor will afford ample room to spread for a generation. This move is a very happy solution of the difficulties under which this Society has always labored.

For the twelve months ending with November 30, 1900, there were 16,256 visitors or sightseers in these rooms, besides 3552 patrons. Of the patrons, 2162 called for and used 8370 volumes of newspaper files and 3191 used general historical publications, including 1021 Kansas books. During the same period there were 1953 letters written, covering all sorts of historical and public information, and 2431 formal acknowledgments, notices, etc., mailed. The problem many people see ahead for this Society and the state is the space which will some day be required for the newspaper files. We have now 23,907 volumes. The count we have kept shows that more than one-third of these volumes are used each year, which strikes me as being a greater per cent. than of any other line of publications issued. When these files are no longer on the floor, requiring the removal of a wagon-load to get one volume, their use will be far greater. There is a growing disposition to depend upon this Society for everything in the way of public record. There is one county in the western portion of the state, organized in 1872, which does not possess the scratch of a pen showing who held certain public positions prior to 1891, but this Society can show back to 1876.

The task of newspaper clipping has been faithfully followed for years, until the files of the Society embrace a large amount of biography, Kansas literature, local history, and clippings showing growth of state institutions, railroads, agriculture, etc., put away in scrap-book

style. Sketches of hundreds and hundreds of the citizens of the state who have passed away, and the transactions and criticisms of public, professional and business men and women of to-day, are to be found here. This work goes back thirty or forty years, and its interest and value cannot be measured. Recently the biography has been sorted out and bound, alphabetically, closing with the end of the year 1900, and it makes about sixty volumes. We have seven large volumes containing all that was published in the newspapers concerning Kansas in the Spanish-Philippine war. Volume 1 is devoted to the general preliminaries of the war, in the first quarter of 1898; volume 2, to the record of the Twenty-first, Twenty-second and Twenty-third Kansas regiments; volumes 3, 4, 5, and 6, to the Twentieth regiment; and volume 7, to Funston, Metcalf, Little, Elliott, Alford, Boltwood, Buchan, Hamilton, Snow, Lindsey, Fitch, Beck, White, Trembly, Barshfield, and others—matter all arranged chronologically as near as practicable. Including local history, there are over 200 volumes of these clippings. The biographies, running back to the territorial period, including the veterans of the civil war and the sturdy and heroic men and women of the frontier, will inspire Kansas boys and girls until the day when the elements melt with fervent heat.

An important contribution to the collections of the Society was made June 30, 1899, by Hon. John Martin, of Topeka. It includes 373 single copies of forty-seven different newspaper publications, in eastern Kansas and western Missouri, covering the years 1855, 1856, 1857, 1858, 1859, 1860, and others bearing various dates through the civil war, together with a number of copies of thirty-seven different Eastern and Southern newspaper publications appearing during the Kansas troubles. Many of the border publications were on the Southern or pro-slavery side of the controversy, which element is very slimly represented in our files, and hence are a distinct addition. The *Kansas National Democrat*, published at Lecompton from about July, 1857, until early in 1861, was edited in turn by Robert J. Walker, Frederick P. Stanton, Hugh S. Walsh, Samuel Medary, and William Brindle. Think of such a combination as this writing columns every week for years, representing the national and territorial administrations, during the most exciting period of the Kansas struggle, and not an issue outside of the thirty-two copies furnished by Judge Martin known to exist. The utmost endeavor has been made by this Society to obtain files of the Lecompton papers. Judge Martin's contribution also contains many pamphlets and legal papers bearing upon the inception and infancy of enterprises now ranking among the largest in the land. I quote from Judge Martin's letter:

These documents I regard as of value, throwing much light and giving much useful information in respect to the early settlement and history of Kansas, and of

public opinion prior to and during the civil war, in the state of Kansas. I part with these documents with some reluctance, though I find it inconvenient to keep and give them such public use as they deserve, and I therefore have come to the conclusion that they will be of more value in the archives of the State Historical Society than in my possession. I am quite certain that the future impartial and intelligent historian of the state will find much in this large list of documents that will be interesting and greatly aid him in preserving and presenting the truth of current events.

This donation by Judge Martin recalls the fact that we have but a limited number of newspaper files prior to 1870. We have forty-six volumes preceding the civil war, confined to counties as follows: Atchison 6, Chase 1, Coffey 1, Doniphan 4, Douglas 14, Leavenworth 7, Riley 2, Shawnee 9, and Wyandotte 3. We have fifteen volumes of Missouri papers during the fifties. We have bound files from the following counties preceding 1870: Bourbon, Chase, Coffey, Franklin, Geary, Johnson, Lyon, Marshall, Morris, Osage, Pottawatomie, and Washington. Papers were printed in other localities prior to that time, but this Society was not organized soon enough to catch them. Copies of many of them are doubtless yet in existence, and they should be filed with us, now that we are to have ample means and space to care for them. A very large proportion of those we have represent the free-soil side. The Society paid seventy-five dollars for four volumes of the Leavenworth *Herald*, pro-slavery. Complete files of the *Squatter Sovereign*, pro-slavery, exist somewhere in Montana, but much correspondence has failed to get a tender of them or a price stated for them.

Our records show that of newspapers and other periodicals now being published in Kansas there are, in all: 51 dailies, 634 weeklies, 116 monthlies, 11 quarterlies, 14 semimonthlies, 4 semiweeklies, 2 bimonthlies, and 5 occasionals; or a total of 837. These figures do not include the Kansas City, Mo., papers, all of them being practically Kansas publications, and each of them continually extending favors in aid of the work of this Society. The regular issues of all these are being given the Society by the publishers and are bound in annual or semiannual volumes.

I would respectfully suggest to the Society that some consideration be given to a change of dates for the annual meeting, the end of the fiscal year, and for closing the accession record. All the state accounts in every department close with the 30th of June, whereas the books and accounts of this Society close with October 31. This was doubtless necessitated by the date of the annual meeting, the third Tuesday in January. The publication of all state reports is due in November and December, covering transactions up to the 30th of June preceding. Hence the proceedings of our January meeting are not published

until they are two years old, unless by special favor the executive council grants a publication out of the ordinary, as was done last spring. If the usual routine had been followed to-day, one-third of the directory published in this biennial report would have been out of office, and the names of their successors would not appear for two years. The records should close on the same date with all other state business, with an annual meeting to be held in the latter part of November, and then up-to-date reports could be made to the legislature. As it is, if we wait to publish our proceedings we are too late for the legislature. Historical articles two years old always pass, but business transactions of a similar age are uninteresting. A change of this character need not interfere with a popular meeting during the session of the legislature, say in February, when there is less confusion from legislative organization and United States senator and state printer elections. Since the organization of this Society, and the establishment of our dates, twenty-five years ago, the state has expanded until such a readjustment seems necessary.

In our sixth volume of collections was published a catalog of the Kansas territorial and state documents in the library of the Society, embracing the titles of nearly complete sets of everything published by Kansas from 1854 to 1898. This is a remarkable showing. No other state has saved such a collection, or can exhibit such a complete catalog of what it has published.

This list is but a forerunner of what the Society has undertaken and almost completed. For the past ten years a catalog of the materials published in books, pamphlets and magazines, by Kansans and about Kansas, has been steadily growing and nearing perfection. Our Kansas library, besides embracing books and articles on Kansas literature, history, education, biography, science, politics, etc., covers also the field of social life, and to one unfamiliar with this feature of our activities the list of annuals in our library would be a complete surprise. It embraces the reports and journals of our various church denominations, secret and fraternal societies, loan institutions, premium lists of county fairs, reports of county and city superintendents of public instruction, reports of private institutions of learning, charitable societies, medical and other scientific associations, legal societies, railroad corporations, etc. It is proposed to devote a room in the new quarters to the Kansas portion of the library, including cases for scrap-books, maps, photograph albums, portfolios, and unframed pictures, with accomodations for those desiring to consult them.

Card catalogs have been made of our collections of manuscripts and pictures, and are being added to as accessions to these departments come in. Although the manuscripts have been quite fully in-

dexed by authors, there are still several collections to receive author cards. The subjects, too, need further amplification. The modern conveniences for arranging the manuscripts when placed in our new vault will largely facilitate their classification and use.

The relics of the Society, though listed in accession records as received, have not been separately cataloged. This we hope to do as the articles are transferred to the new quarters.

The general library of the Society is classified by the Dewey decimal system, rendering it comparatively easy of reference, in spite of the fact that it still remains uncataloged, with the exception of a portion of the books pertaining to history.

During the year the Society lost four of its directors by death—Col. Cyrus K. Holliday, Mr. Henry Kuhn, Hon. L. D. Lewelling, and Mr. Brinton W. Woodward. The material, political and literary life of the state, and good citizenship generally, enjoyed great contributions from these gentlemen. All were active and painstaking in the work of this society. Proper memorial papers have been solicited.

A very lifelike oil painting of Judge Franklin G. Adams, your secretary for twenty-four years, has been presented to the Society by his children. The Kansas Editorial Association, at its annual meeting in Fort Scott, January, 1900, requested permission of the state authorities to place a bronze slab to the memory of Judge Adams in the wall, and this will be done through the contributions of Kansas editors.

An edition of 4000 of the sixth volume of the collections of the Society was issued during the year. There has been an unusual demand for it. The criticisms of the papers published are of importance in administering the duties of this position. Volumes 1, 2 and 3 are out of print; there are 200 of volume 4 and 100 of volume 5 on hand. There are calls for them every week. Of our biennial reports, volumes 1, 2, 4, 8 and 9 are out of print, and volumes 3, 5, 6 and 7 are limited.

The executive council have been exceedingly liberal toward the Society in the matter of printing and binding. And in their designs for furnishing the new rooms for the Society, they are broad-gauged and liberal, but judicious, showing an anxiety that the Society's work and collections shall be provided for, commensurate with its importance and value, and in harmony with the character of the capitol building.

GEO. W. MARTIN, *Secretary.*

MEETINGS, 1899–1900.

MEETING OF THE BOARD OF DIRECTORS—JANUARY 17, 1899.

The twenty-third annual meeting of the board of directors of the Kansas Historical Society was held in the west rooms of the Society, Tuesday afternoon, January 17, 1899, commencing at two o'clock.

In the absence of the president, John Speer, who was unable through illness to attend the meeting, George W. Martin was called to the chair. Franklin G. Adams also being ill, the assistant secretary was requested to act in his place.

The following members of the board were present: Geo. W. Martin, D. W. Wilder, Mrs. Bina A. Otis, Peter McVicar, Eugene F. Ware, John Guthrie, A. B. Whiting, John G. Haskell, William Sims, C. K. Holliday, F. P. Baker, Frank C. Montgomery, Harvey D. Rice, William H. Barnes, W. L. Brown, E. B. Cowgill, Miss Lucy D. Kingman, J. B. Remington, A. R. Taylor, Fred. Wellhouse, L. D. Whittemore.

D. W. Wilder, for the committee on nominations, reported a list of thirty-three members of the board of directors for election at the annual meeting of the Society in the evening, and officers and honorary and corresponding members for election at the evening meeting of the board. The report of the committee was accepted.

On the motion of D. W. Wilder, the following resolution was unanimously adopted:

Resolved, That the secretary of this Society be requested to prepare a circular and send it to every editor in the state, suggesting the timeliness of preparing histories of every town, city and county in the state, as a fitting patriotic memorial of the end of the century. A request similar to this was made to the nation by the centennial commissioners in 1874, and was appropriately responded to in 1876 by people in all parts of the union, Kansas being a generous and distinguished contributor.

John Guthrie reported that he had prepared a bill for submission to the legislature, providing for the collection and preservation of vital statistics by the state. After a brief synopsis of the bill by John Guthrie, and remarks upon the subject by members of the board, the matter was withdrawn by consent, and referred again to the committee for consideration.

E. B. Cowgill then made the following report, which, on motion, was adopted:

Your committee on cooperation of local historical societies with the State Historical Society begs leave to recommend that each county or other local historical

society be entitled to one delegate to the State Historical Society, who shall have all the rights and privileges of membership in the State Historical Society, including the right to be elected a director or officer of said Society, the right to take part in the discussions, and the right to vote. It is further recommended that every such county or other local historical society be invited to deposit in the library of the State Historical Society such historical collections as it shall make.

The following resolution was then offered by George W. Martin, and seconded by S. A. Kingman with appropriate and forceful remarks:

Resolved, That the executive council is respectfully memorialized to comply with concurrent resolution No. 22, adopted by the legislature of 1895, granting to the Historical Society for its library and museum the two floors of the east wing below the senate chamber, upon the removal of the state library.

After a lengthy discussion upon the subject of additional rooms, the resolution was adopted.

S. W. Williston, of the state university, then read his paper on "An Ancient Sod House in Western Kansas."

On motion of Samuel A. Kingman, the thanks of the Society were accorded Doctor Williston for his very interesting paper, and a copy was requested for publication in the collections of the Society.

J. C. Price, of Republic City, was then invited by the chair to make some remarks explanatory of the objects of the Pawnee Republic Historical Society, and of the proposed purchase by the state of the village site. He responded at some length, and presented, in the name of Mrs. Elizabeth A. Johnson, of White Rock, a fine crayon portrait of Capt. Zebulon M. Pike.

At the close of J. C. Price's remarks, a copy of a bill prepared for presentation to the legislature by F. M. Woodward, member from Republic county, was read for the consideration of the board, and, on motion of Peter McVicar, was referred to the legislative committee.

On motion of D. W. Wilder, the thanks of the board were extended to J. C. Price, and he was requested to put his remarks in writing for publication in the minutes of the meeting.

E. F. Ware made a brief verbal report for the committee on J. V. Brower's Coronado investigation, stating that the committee, composed of John Guthrie, L. R. Elliott, and himself, had examined the proposition to continue the investigations of J. V. Brower, and believing that the investigation and publication of the result by the Society would require an outlay which the Society could not afford, the committee decided adversely to the proposition. The report of the committee was accepted.

The following report of the committee on the Connelley collection

of Wyandotte Indian manuscripts was approved, and the committee discharged:

The committee appointed by the State Historical Society, composed of Wm. A. Peffer, L. D. Whittemore, John Speer, F. W. Blackmar, and W. H. Carruth, agree that the Connelley collection is well worthy of deposit in the files of the Kansas State Historical Society, and are of the opinion that the legislature, upon proper information, will appropriate funds sufficient to make reasonable compensation for the collection, and they would be pleased if W. E. Connelley should find it convenient to place the collection in the care of the Society for preservation, and for submission to the proper committee of the legislature, at its next meeting, and in case Mr. Connelley does so place the collection, the Society will undertake to make proper representation as to their value as materials of history.

W. E. Connelley, of Beatrice, Neb., being detained at home through illness, George W. Martin, of Kansas City, the former home of Mr. Connelley, stated the subject of his address to be "The First Provisional Government of Kansas," and said, as the paper was lengthy, he would not attempt to read it. Mr. Martin said further, that Mr. Connelley probably knew more about the history of the Wyandotte Indians than any one now living, that he was an indefatigable collector of the materials of the history of the tribe, and was an accurate and painstaking historian.

On motion of John Guthrie, the address was ordered to be printed in the collections of the Society.

The meeting then adjourned.

MEETING OF THE SOCIETY—JANUARY 17, 1899.

The Society met in Representative hall at 7:45 Tuesday evening, the 17th of January, 1899, Vice-pres. E. F. Ware presiding. With our regrets we send him our heartfelt sympathy, and our hope for his speedy recovery to his usual and Kansas robust health.

WHEREAS, I have long been a member of this Society, and have known its officers and members from the beginning—have seen them come and go—but I never before missed from his place of duty the secretary, who has, since his appointment in 1875, always performed his office at the annual meeting; and be it

Resolved, That we hereby extend to him our sincere sympathy in his illness, and express the hope that he will be restored to health, and enabled to resume his post of duty.

The meeting then adjourned.

John Guthrie then offered the following resolution, which, after discussion, was adopted:

Resolved, That the thanks of this Historical Society and other patriotic people of the state of Kansas are due and are hereby tendered to Mrs. Elizabeth A. Johnson, of White Rock, Republic county, for a donation to this Society of eleven acres of land, embracing the site of the Pawnee Indian village where Capt. Zebulon M. Pike, in 1806, first raised the American flag on Kansas soil. Mrs. Johnson, in her patriotic zeal, paid $2300 for a quarter-section of land, in order to prevent this interesting spot from passing into careless hands, and to further protect it bought a roadway around it, and it is the judgment of this Society that the legislature should suitably mark the same.

The following resolution, offered by William E. Connelley, led to much discussion, but was adopted without amendment:

Resolved, That a committee of three, of which the secretary of the Society shall be one, be appointed by the president, to consider the propriety of amending the constitution of this Society in relation to the charge of annual fees for membership and the admission of delegates from local historical societies in the state; and that said committee be required to report to a meeting of the Society to be held on Tuesday, the 1st day of May, 1900, and if in the opinion of the committee such amendment or any amendment is desirable, such amendment be formulated by such committee and reported at said meeting.

Colonel Moore then presented the following resolution, prepared by Prof. W. H. Carruth, of the state university, which was unanimously adopted:

Resolved, That the work of this Society be organized into divisions, as follows: Archæology; historic relics; explorations; Indian history; history of the territory; history of the state; geography, including maps, views of buildings,

and scenery; origin of local names; journals, diaries, and manuscripts; local history, interviews, and chronicles; organization of local historical societies; biography; portraits; genealogy and directories; newspapers, periodicals, and scrapbooks; literature; and that the directors, according to their own preference and subject to the discretion of the executive committee, be assigned to committees which shall have especial care and supervision of the work comprised under such divisions, subject to the advice and control of the executive committee.

Miss Adams offered the following resolution, which was adopted:

Resolved, That a committee of five be appointed to prepare for a suitable observance of the twenty-fifth anniversary of the organization of the Kansas State Historical Society.

The president announced that the required committees would be appointed by his successor.

Colonel Moore requested that the matter of vital statistics be referred to the members of the committee on genealogy, and that they, in cooperation with the state board of health, be requested to prepare a bill on this subject for submission to the coming session of the legislature.

Hon. John G. Haskell then presented to the Society two volumes, entitled "Select Charters and Other Documents Illustrative of American History, 1606–1775," and "Select Documents Illustrative of the History of the United States, 1776–1861," edited by William MacDonald.

Brinton W. Woodward nominated Professor MacDonald, who holds the chair of history in Bowdoin College, Brunswick, Maine, as corresponding member of the Society.

The board adjourned, and the Society met in session.

MEETING OF THE SOCIETY—JANUARY 16, 1900.

Col. Richard J. Hinton was invited by the president to address the meeting, and paid a brief but eloquent tribute to the work of Judge Adams for the State Historical Society.

Colonel Metcalf then delivered his address on "The Twentieth Kansas in the Philippines."*

Maj. A. M. Harvey followed with an address on "The Organization and History of the Twenty-second Kansas Regiment."

The secretary then read the address of Lieut.-Col. James Beck, who was unable to be present, on "The Organization and Services of the Twenty-third Kansas."

The meeting then adjourned until eight o'clock P. M.

The evening meeting was held in Representative hall, and was called to order by President Ware at eight p.m.

---

* The papers read at the afternoon and evening meetings were published in the sixth volume of collections of the Society.

Preceding the program of the evening meeting of the Society, an informal reception was held in honor of Col. and Mrs. R. J. Hinton, and was largely participated in by members of the Society and other citizens.

Rev. John S. Glendenning, of the Second Presbyterian Church, Topeka, pronounced the invocation.

The thirty-three members of the board of directors nominated at the afternoon meeting of the board were elected for the three years ending January 20, 1903, as follows:

Lieut. Jacob R. Whisner and Fred. D. Heisler then presented, in behalf of company B of the Twentieth Kansas regiment, a flag captured by that company February 7, 1899, at Caloocan. On motion of Hon. John K. Wright, the thanks of the Historical Society were given company B for the flag.

Miss Irma Doster and Professor Beerman then rendered a violin duet.

The address of the evening, by Col. R. J. Hinton, followed: "The Nationalization of Freedom and the Historical Place of Kansas Therein."

JOHN MARTIN,

A meeting of the executive committee of the Kansas Historical Society was held at two P. M., November 27, 1900, to consider the question of rooms for the Society. There were present John Martin, William Sims, A. B. Whiting, George A. Clark, and E. F. Ware. The following resolution was unanimously adopted:

Resolved, By the executive committee of the State Historical Society, that the proposition of the executive council to assign for the use of the Society all of the south wing of the fourth floor of the state capitol, except two rooms on the northwest corner reserved until the close of the legislative session of 1901, is hereby accepted, and all claims of the Historical Society under concurrent resolution No. 22, adopted by the legislature of 1895, are waived.
